

# NetTonic Revamps Spa & Hotel Break Website

*January 19, 2016*

January 19, 2016 - PRESSADVANTAGE -

NetTonic, a Bedford UK based digital marketing/web development firm, is pleased to announce it will manage Spa & Hotel Break's website and Pay-per-Click and display campaigns. The site will be managed on both Google's and Bing's networks.

The recently built website features a user-friendly interface. With the latest online marketing initiatives, the client has seen an increase in revenue. It is also able to offer bigger and better discounts as a result. Chris Wright, NetTonic's founder and CEO, says: "We have been looking after their SEO strategy for months and we've successfully combined their marketing strategy and online reputation management. It has resulted in a lot of growth for the client over the past 12 months. We have exciting plans ahead and look forward to a successful and productive relationship."
