Providing expert tips and information for finding the best person out there and recognizing the person who is not the right one, Author Sherry Chenell is proud to announce her new book titled ?Finding Mr. Right.?

Sherry says that relationships work only when one is with the right person. There are many instances of women ending up with the wrong guy just because they were not able to recognize the real person in him in the beginning. But Sherry says that she has come up with the perfect guide for all the women out there with her newly released book ?Finding Mr. Right.? The book is aimed at providing expert tips for women to aid them in looking for various warning signs in the men who approach them that will let them know that the man they are dating is not worth letting into their lives.

Talking about her newly released book, Sherry Chenell said, ?Women at times end up with the wrong person and it is not their fault. The person, at first, tries to present himself as the best one out there and later the girl gets to know the reality. The new book will help single women the find the right man of their dreams.?

The book is written as an expert?s guide for single women. Aimed at creating better relationships from the very start, the book focuses on finding the right person for women readers by providing them specific warning signs to look for, ranging from how the men dress, what they say, don?t say, or do, etc. These signs are explained in detail to assist women to watch for all these signs in the men who approach them and decide for themselves if they want that person to be an all important part of their lives or not.

?Every big thing works well if the base is correct. The same is true in relationships. If the partner is not right, there is no way the relationship will work well in long term. Thus, through this book, I?ve aimed at making the base of relationships correct by helping women identify the right partner out there for them and prevent them from being deceived by the ?wolf in sheep?s clothing?,? Sherry said.

The book is written in a simple, yet effective manner, so that women can understand the whole concept of finding the right men. Sherry, who has an MBA and Master?s in Psychology, has been a practicing therapist

for 30 years, counselling both individuals and couples. She used all her experience and expertise in coming up with this book which has been made available on Amazon and can be read directly from there.
