

European Coatings Inc. Revolutionizes Bathtub Refinishing with Eco-Friendly Supplies and Rapid-Dry Technology

January 31, 2025

Wilmington, North Carolina - January 31, 2025 -
European Coatings Inc., a reputable name in bathtub refinishing supplies, has broadened its product lineup to meet the needs of contractors and businesses in home remodeling and real estate. With over 40 years in the industry, European Coatings is known for setting benchmarks in bathtub reglazing solutions. More information about their extensive offerings can be found on their official website.

They've just introduced a new series of Tub Reglazing European Coatings Products aimed at remodeling pros who need fast and reliable options. The stand-out feature of these products is the quick drying time. They are fully dry in just 12 hours without using heat lamps, which helps businesses like hotels and apartment complexes get back to normal operations quickly, cutting down on downtime.

CEO Todd Schoen shared his excitement about this development, saying, "The introduction of these reglazing products represents a milestone for us. We aim to empower contractors to deliver outstanding

results while optimizing their workflow. This expansion reinforces our commitment to excellence and sustainability in the bathtub refinishing industry."

European Coatings also offers a wide selection of primers, top coats, etching agents, strippers, and cleaners. These are crafted with cutting-edge coatings technology to give a smooth and glossy finish that doesn't chip or discolor. They proudly strive to use more eco-friendly formulas, making them better for both contractors and the planet.

Schoen further emphasized their eco-friendly approach by stating, "Our mission extends beyond delivering exceptional results. We're deeply committed to creating solutions that are sustainable and reduce any ecological footprint. Moving forward, we'll continue innovating towards more eco-friendly options."

European Coatings Bathtub Refinishing Supplies serve both professional contractors and DIY fans with a range of finishes that cater to different design tastes. The company focuses on customer satisfaction by providing reliable products that promise excellent outcomes for reglazing projects.

The impact of the company on the remodeling industry is evident in how it offers solutions that not only improve the look of spaces but also extend the life of fixtures. The bathtub refinishing market plays a key role in home improvement, with bathroom remodeling being a major part of the $233 billion home remodeling sector in the U.S.

European Coatings' broad product range and quick-drying technology help contractors increase their efficiency, particularly in commercial settings. By minimizing service interruptions, these products enhance operations and customer satisfaction. This reputation keeps European Coatings as a go-to partner for bathtub refinishing materials across the nation.

As European Coatings grows, its focus on quality and innovation remains strong, ensuring customers get top-notch bathtub reglazing tools and materials. With ongoing advancements and keen awareness of market trends, European Coatings reinforces its status as a leader in the industry and continues to uphold its standing as a key provider of European Coatings Bathtub Refinishing Supplies.

For more details on Tub Reglazing European Coatings Products and other offerings, people are encouraged to explore the company's website or reach out to their sales team. European Coatings is dedicated to nurturing strong client relationships and delivering unmatched support.
