Brinton Vision Honored with 2024 STL Headliner Award for Best LASIK & Vision Correction Surgery

January 10, 2025

ST. LOUIS, MO - January 10, 2025 -
Brinton Vision, a premier vision correction center in Creve Coeur, Missouri, is proud to announce that it has been named the winner of the Best LASIK & Vision Correction Surgery category in the 2024 STL Headliners program. This marks the third consecutive year Brinton Vision has received this prestigious recognition, highlighting the practice?s ongoing commitment to providing world-class eye care and transformative vision correction services to the St. Louis community.

The STL Headliners program, organized by the St. Louis Post-Dispatch and STLtoday.com, celebrates the most outstanding businesses and services in the region. Winners are determined by nominations and votes from community members, making Brinton Vision?s achievement a reflection of its exceptional patient care and consistent delivery of life-changing results.

?We are incredibly honored to receive the STL Headliner Award for the third year in a row,? said Dr. Jason Brinton, founder of Brinton Vision. The center acknowledged that the recognition reaffirmed their mission to offer people the freedom of clear vision. Every day, the staff provide personalized, leading-edge care that empowers their patients to live life to the fullest.

At Brinton Vision, innovation and patient-centered care are at the core of every procedure. The practice utilizes seven advanced diagnostic technologies to conduct comprehensive evaluations of each patient?s eye health. These tools enable the team to detect conditions like macular degeneration, glaucoma, and cataracts and determine the most effective treatment plans tailored to each individual?s needs.

In addition to LASIK, Brinton Vision offers six additional modern vision correction procedures: EVO ICL (Implantable Collamer Lens), SMILE (Small Incision Lenticule Extraction), laser eye surgery, PRK (Photorefractive Keratectomy), CLR (Custom Lens Replacement), Kamra Inlay, and LAL (Light Adjustable Lens).

This comprehensive approach ensures that patients receive the best vision correction option for their unique eyes, rather than a one-size-fits-all solution. The practice?s dedication to personalized care has earned Brinton Vision over a thousand five-star reviews and a perfect Google rating ? a rare achievement among vision correction centers nationwide.

Brinton Vision was also recently honored as Missouri?s Best Laser Eye Center for 2024 by Missouri?s Best, a prestigious recognition highlighting businesses that excel in their fields. This award, determined by public votes, underscores Brinton Vision?s unwavering dedication to providing top-notch laser eye surgery and exceptional patient experiences throughout the state.

In addition to these accolades, Brinton Vision has previously been recognized by St. Louis Magazine?s A-List Readers? Choice Awards, winning the No. 1 LASIK Center title three years in a row. This consistent recognition from the St. Louis community further cements Brinton Vision?s reputation for excellence, innovation, and patient-centered care.

Brinton Vision?s commitment to excellence goes beyond technology. The team?s passion for helping patients achieve a life free of glasses and contact lenses is evident in every step of the patient journey. From the initial consultation to post-procedure follow-ups, the staff ensures a supportive, informative, and seamless experience.

?Our goal is to make every patient feel seen, heard, and confident in their vision correction journey,? Dr. Brinton added.

The Brinton Vision team extends heartfelt gratitude to the St. Louis community for their continued trust and support. This recognition fuels their dedication to helping even more patients achieve clear, vibrant vision and a brighter, glasses-free future.
