

New Line Of Fragrances For Scented Soy Candles Released

January 26, 2016

January 26, 2016 - PRESSADVANTAGE -

Skore Candle, a business in Barrie, ON, Canada, is proud to announce that they have launched a new range of scents for their line of soy candles. The company, which is known for its affordable, natural soy wax that is non toxic, clean burning scented soy candles, has long been committed to creating new products to enhance people's enjoyment of various fragrances. The new range is already proving to be incredibly popular.

Penelope Lalonde from Skore Candle says: "We are committed to advancing the health and natural product movement. We have put several systems in place to ensure all our candles are completely natural. However, we also want to make sure that people can actually enjoy our products, which is why we are always looking into new scents. We're happy to see that our latest line is being so well received."

One of the most popular new scents is Lemongrass, which captures a fresh lemony scent, capped off with lingering herbaceous undertones. This is a refreshing and energizing scent. They have also added Succulent Chocolate, with an irresistible and tempting aroma. The texture is rich and creamy and it has a light cocoa powder coating.

All the Skore Candle products have received numerous positive reviews, which is why they are now known as the producers of the best soy wax candles around. "I am pleased with both the appearance and performance of this Skore Candle - Renewed," says Navi. "It has an incredible scent with virtually no black soot unlike the other scented candles that I have tried. It smells so fresh taking over the "after-cooking scent" in our kitchen. I like almost anything that's lightly/mildly soothing scented (not the strong smelling ones), so I really love that Renewed is one. For those who are like me, Renewed is a great choice. Overall, Skore Candle-Renewed burns cleaner, lasts longer and holds more fragrance."

People who are interested in purchasing what some would consider as one of the best scented candles around are encouraged to visit the company's Amazon selling page. Here, they will find the full available range of scents, candles and melts. Whenever new scents are added to the range, they will also be available through this marketplace.
