
Rev Up the Ride: Go Industries Launches Brush Guards with Winch Mount for Unmatched Truck Protection

January 22, 2025

Richardson, TX - January 22, 2025 -
Go Industries has introduced the Commercial Grade Winch System, a new product aimed at boosting the capabilities and longevity of truck accessories. This system features a modular Grille Guard that serves as a solid platform for adding tools like a winch carrier and Brush Guards, customizable to fit specific customer needs. This innovation, especially designed for truck enthusiasts, includes brush guards with winch mount options, offering more versatility and protection for various tasks.

The Grille Guard starts with a strong base made from 5/16-inch laser-cut steel uprights and 2.5-inch 16-gauge steel cross tubes. This sturdy build offers dependable protection for trucks, whether they're on city streets or tackling rough terrain. Its design enables easy customization, with optional Brush Guards that not only boost the vehicle's look but also safeguard headlights from road debris and outdoor brush.

"Our Commercial Grade Winch System is about providing truck owners with assurance that their vehicle can handle any type of terrain," said a representative from Go Industries. "We are proud to offer a product that

enhances both style and practicality. It's crafted with the installer in mind, ensuring simple integration with custom, heavy-duty mounting brackets that promise maximum strength."

The system is also flexible enough to house a 9.5 or 16.5 Winch Carrier, adaptable to the user's specific needs and tastes. Go Industries' Commercial Grade Winch System not only offers practical advantages but also boasts a sleek, professional finish. It comes with a three-year warranty covering materials, craftsmanship, and finish. Made entirely in the USA, this product reflects Go Industries' dedication to quality and American manufacturing.

"For over forty years, our company has been committed to delivering products that truck enthusiasts can rely on every day," continued the Go Industries representative. "This new system extends that commitment. It merges innovation, durability, and precision in a way that we believe both truck owners and professionals will appreciate. Our brush guards with winch mount provide the extra support needed for tough environments."

Go Industries is broadening its range, aiming to ensure truck owners have access to products that fit their most demanding needs. Their Winch Grille Guards System exemplifies their reputation for quality and innovation. Customers are encouraged to check out the customization options for this system, which include choices related to vehicle make and model, color, optional Brush Guards, and winch carriers. For more comprehensive information on these offerings, the Go Industries website is a valuable resource.

As a leading player in truck accessories and custom manufacturing, Go Industries has consistently evolved to meet the needs of various sectors, including law enforcement and custom fabrication. Customers interested in law enforcement vehicle accessories or looking for custom manufacturing solutions can find detailed information and direct support through the official website.

In addition to their new release, they remain dedicated to offering comprehensive solutions with product instructions, a detailed product catalog, and customer service support. Customers can access all these resources, including warranty information and detailed product videos, on the Go Industries website.

For more information on the Commercial Grade Winch System and how it can improve truck performance and protection, customers are encouraged to visit the official website. It's important to be aware of Proposition 65 warnings related to potential cancer and reproductive harm for all prospective buyers, ensuring informed choices and safe use of the products. For further details, visit the Go Industries website.

Go Industries takes pride in continuing to serve their customers, providing tools and products that enhance the functionality and style of trucks. Through their ongoing dedication and expertise, the company remains an

essential part of the truck accessory industry, focused on innovation and the continual advancement of their offerings.
