Michael A. Brusco, MD, FACS Faculty at George Washington University Department of Ophthalmology

January 31, 2025

FALLS CHURCH, VA - January 31, 2025 -
Brusco Vision is proud to support Dr. Michael A. Brusco, MD, FACS, as part of the esteemed faculty of the George Washington University Department of Ophthalmology as an assistant professor, where he will teach refractive surgery to the next generation of ophthalmologists. This appointment reflects Dr. Brusco?s exceptional expertise in advanced vision correction procedures and his commitment to advancing the field of ophthalmology through education and innovation.

Dr. Brusco?s dedication to excellence in refractive surgery has earned him a stellar reputation among patients and peers alike. As a highly-experienced refractive surgeon and board-certified ophthalmologist, he has performed thousands of vision correction procedures, including LASIK, SMILE, PRK, and EVO ICL, transforming the lives of his patients by reducing or eliminating their dependence on glasses and contact lenses. Now, as part of the faculty at one of the nation's leading academic institutions, Dr. Brusco is poised to make a broader impact by sharing his knowledge with aspiring surgeons and fostering the advancement of refractive surgery techniques.

Dr. Brusco?s academic and professional achievements have positioned him as a trusted authority in

ophthalmology. He earned his medical degree from Northwestern University, where he graduated with multiple clinical clerkship honors, and went on to complete his residency at the University of Kansas. While there, he was considered one of the most accomplished and prolific residents in the program?s history. Following his residency, he pursued additional specialization through a preceptorship in refractive surgery, which solidified his expertise in correcting complex visual impairments.

In addition to his clinical and teaching roles, Dr. Brusco is an active member of several professional organizations, including the American Society of Cataract and Refractive Surgery (ASCRS) and the American Academy of Ophthalmology (AAO), and a founding member of the World College of Refractive Surgery & Visual Sciences. As an assistant professor at George Washington University, Dr. Brusco will continue to play a vital role in shaping the future of refractive surgery, combining academic rigor with practical surgical expertise to guide students in mastering the latest technologies and techniques.

George Washington University?s Department of Ophthalmology has a longstanding reputation for excellence in medical education and patient care. The department attracts some of the most accomplished professionals in the field, and Dr. Brusco?s appointment is a testament to the institution?s commitment to maintaining a world-class faculty. By integrating academic teaching with hands-on clinical experience, the program equips residents and fellows with the skills necessary to provide top-tier patient care in a rapidly evolving medical landscape.

Dr. Brusco?s patients consistently praise his approachable demeanor, attention to detail, and ability to provide life-changing results. His unique ability to combine technical precision with a patient-centered approach has made him a trusted partner in their vision care journeys.

His influence extends beyond the clinic as he trains the next generation of ophthalmologists to uphold the highest standards of care in their practices. Brusco Vision is honored to support Dr. Brusco in this role, as it underscores the practice?s commitment to fostering excellence not only in patient care but also in the broader field of ophthalmology. Patients and referring physicians alike can take pride in knowing that Dr. Brusco?s expertise is shaping the future of vision correction, inspiring confidence in the advancements yet to come.
