

Go Industries Launches Durable Dodge Dually Mud Flaps for Ultimate Truck Protection

February 19, 2025

Richardson, TX - February 19, 2025 -
Go Industries Inc. is excited to introduce the newest member of its truck accessory lineup: Dodge dually mud flaps. This addition is tailored to offer enhanced protection for dually trucks. Since 1978, the company has been known for meeting the needs of truck owners, law enforcement, and custom manufacturers, and they continue to broaden their range of products to cater to diverse truck owner requirements. Detailed information about their range of products and services can be found on their official Go Industries website.

These new mud flaps aren't just for Dodge trucks; they're also compatible with major dually truck models like GMC, Chevrolet, and Ford. They're built to protect the truck's paint and shield other drivers from mud, debris, rocks, sand, and salt. Made from tough, non-recycled rubber, they are designed to last and perform well under various driving conditions.

A Go Industries spokesperson stated, "Recognizing the necessity for reliable protection for dually trucks, we're delighted to launch our latest offering of Dodge dually mud flaps. Our design prioritizes the safety and

integrity of trucks while making sure that our products meet the high standards our customers have come to expect."

These mud flaps are available for both dually and single-wheel trucks, with different sizes to fit various truck models. Truck owners can enjoy the company's straightforward selection process, allowing them to pick mud flaps based on their truck's specific make, model, and year.

Go Industries is devoted to providing customers with plenty of resources for making informed purchases. Whether it's through detailed instructions, a complete catalog, or handy videos, they ensure that all necessary information is within reach for customers. More insights into their offerings, instructions, and product catalog can be explored on the Go Industries website.

In addition to mud flaps, Go Industries also offers an extensive variety of truck accessories. These include grille guards, bumper replacements, and headache racks, all made to protect and enhance truck functionality. The company also provides specialized gear for law enforcement vehicles, enhancing safety and performance for these models.

Custom manufacturing is another significant part of Go Industries' offerings. Customers with specific manufacturing requests can easily get quotes through the company's website, making the process smooth and transparent.

"Beyond standard offerings, our custom manufacturing capabilities allow us to cater to unique customer needs," the spokesperson added. "We're proud to offer not just products, but solutions that provide peace of mind for truck owners."

Based in Richardson, Texas, Go Industries is proud of its long-standing dedication to quality and customer happiness. The Platinum Status they hold with the Specialty Equipment Market Association (SEMA) underscores their commitment to providing high-quality products and services in the automotive industry.

As part of its community engagement, Go Industries stays active on social media platforms like Twitter, Facebook, and Instagram. Customers and fans are encouraged to connect with the company on these channels for updates, promotions, and more. Further engagement and commerce options, including details on cryptocurrency acceptance, are detailed on the company's main website.

Moreover, the company is moving forward with innovative commerce techniques by accepting cryptocurrencies, showing a modern approach to business dealings. Customers can find more information about their products, prices, and services by visiting the Go Industries website.

The introduction of the Dodge dually mud flaps highlights Go Industries' dedication to providing essential truck accessories that meet the specific needs of dually truck owners. With a focus on quality, durability, and customer satisfaction, they continue to be a trusted name in the truck accessory market.
