

PeptideSciences Posted Highest Quarter 4 Sales Record

January 21, 2016

January 21, 2016 - PRESSADVANTAGE -

Expanding company offers American, research-grade peptides.

PeptideSciences is excited to announce that they posted their highest quarter 4 sales record ever at the end of 2015. The growing company looks forward to a highly successful 2016.

PeptideSciences offers American manufactured, research-grade peptide products created especially for top-tier laboratories. According to PeptideSciences, their successful 4th quarter shows that more research is being done in these labs, and this trend directly correlates with an uptick in scientific research.

PeptideSciences is proud to offer top-notch peptides backed by world-class customer care. All products are manufactured with the highest standards. More information can be found at <http://www.peptidesciences.com>.

About PeptideSciences
