

One Stone Private School Accepting Applications for a Progressive Future in Education

February 06, 2025

February 06, 2025 -
Boise, Idaho ? One Stone, an innovative private school redefining the landscape of education, is now accepting applications for the upcoming academic year. With a commitment to excellence and a progressive, student-driven approach, One Stone offers a radically individualized curriculum that empowers students to achieve success both academically and personally.

One Stone stands apart from traditional schools by fostering a learning environment that emphasizes real-world problem solving, creativity, and leadership. At One Stone, students are encouraged to take ownership of their learning and development through a personalized approach that integrates modern teaching techniques with cutting-edge technology. This focus on personalized education allows each student to explore unique opportunities and tailor their academic journey to match their individual interests and strengths.

"Our school is designed to be a place where innovation and collaboration thrive," said Michael Reagan, the

director of the One Stone high school. "We believe that education should be more than memorizing facts?it should be an engaging, dynamic process that develops not only academic skills but also leadership, creativity, and critical thinking. Our programs combine rigorous academics with extracurricular activities, mentorship, and real-world learning experiences that prepare students for the challenges of the future."

One Stone?s curriculum is carefully crafted to balance academic excellence with skill-building and practical experience. The school offers a wide range of programs, including core academic courses, technology-integrated classes, and extracurricular activities designed to nurture creativity and collaboration. With a focus on holistic development, the curriculum provides opportunities for students to engage in leadership and community projects, ensuring they graduate as well-rounded individuals ready to contribute to society.

The One Stone campus is a modern, state-of-the-art environment where technology and teaching converge to create an ideal setting for learning. Designed with innovation in mind, the campus features advanced digital platforms and learning tools that support an interactive and engaging classroom experience. Faculty members at One Stone are dedicated professionals who bring a wealth of expertise, mentorship, and personalized attention to each student. They work closely with students to foster both academic and personal growth, ensuring that every student has the support and guidance they need to excel.

One Stone also prioritizes a collaborative community where students, faculty, and staff work together to build strong relationships and support networks. The school?s commitment to collaboration and mentorship is evident in its emphasis on group projects, community service, and leadership training. Through these initiatives, students learn the value of teamwork, effective communication, and shared responsibility?essential skills that are crucial for future success in any field.

In addition to its comprehensive academic programs, One Stone offers a wide array of extracurricular activities that complement the curriculum and promote holistic development. Students have access to a variety of clubs, sports teams, art initiatives, and technology-driven projects that provide practical opportunities for leadership, creativity, and collaboration. These extracurricular programs are designed to enhance personal development, encourage exploration, and help students build a diverse portfolio of skills that will serve them well in both higher education and future careers.

One Stone?s innovative approach to education goes beyond the classroom by emphasizing growth over grades. The school values development, critical thinking, and problem-solving over traditional grading systems, reducing stress and encouraging students to take risks and embrace new challenges. As a nonprofit institution, One Stone is dedicated to serving the community and providing quality education without the pressures of profit-driven motives, making it an ideal alternative for students who may not thrive in conventional settings.

"At One Stone, our mission is to transform education by creating an environment that celebrates personalized learning, innovation, and community," said Reagan. "We invite students and families who are looking for a school that values collaboration, mentorship, and the holistic development of each individual to apply and join our vibrant community. Our programs are designed to prepare our students for a successful future in an ever-changing world, and we are excited to welcome the next generation of leaders to our campus."

One Stone is now accepting applications for the next school year. Interested families are encouraged to visit https://onestone.org for more information on admission requirements, campus tours, and detailed descriptions of the school?s innovative programs and extracurricular offerings.
