Wilmington Dermatology Center Introduces EVERESSE®: Revolutionary Non-Invasive RF Technology

February 10, 2025

February 10, 2025 -
Wilmington, NC ? February 2025 ? Wilmington Dermatology Center is thrilled to announce the arrival of EVERESSE®, an innovative monopolar Radiofrequency (RF) treatment, now available to patients seeking advanced skin lifting and tightening solutions.

EVERESSE is manufactured by Classys, Inc. and available in the United States exclusively from Cartessa Aesthetics. EVERESSE is branded as Volnewmer globally.

EVERESSE represents a significant leap forward in RF technology, setting new standards for safety, comfort, and efficacy in non-invasive dermatological treatments. Wilmington Dermatology Center is proud to be among the first practices in the United States to offer this groundbreaking technology.

What sets EVERESSE apart

Cutting-Edge RF Technology: EVERESSE delivers 6.78MHz of thermal energy precisely to the papillary and reticular dermis layers, stimulating collagen production for superior skin lifting and tightening results.

Innovative Design: Featuring a uniquely engineered flexible tip that adapts to natural contours, EVERESSE ensures consistent energy delivery while maximizing patient comfort with continuous water cooling.

Safety and Comfort: Unlike traditional RF systems, EVERESSE eliminates treatment gaps and discomfort associated with pulsed gas cooling, offering a smoother and more pleasant patient experience.

?At Wilmington Dermatology, we are committed to offering our patients the most advanced dermatology treatments available,? said Dr. Rosalyn George at Wilmington Dermatology Center. ?EVERESSE represents a significant advancement in non-invasive skin rejuvenation, providing our patients with exceptional results and a comfortable treatment experience.?

Who is a candidate for EVERESSE

Prospective patients are encouraged to schedule a complimentary consultation at Wilmington Dermatology Center to determine if EVERESSE is right for them.

During the consultation, the team will assess individual goals and skin health to customize treatment plans.

Everesse Treatment Prep and Results

EVERESSE treatment times vary based on treatment target areas or customized plans, and may average anywhere between 30-40 minutes.

The treatment results will be seen gradually over a period of up to 6 months with zero down time. Most patients are able to go about their day normally after treatment.

About Wilmington Dermatology Center
