

European Coatings Inc. Expands Bathroom Tub and Tile Refinishing Supplies for Professionals

February 21, 2025

Wilmington, North Carolina - February 21, 2025 -
European Coatings Inc. has made a name for itself as a leader in the bathtub paint and reglazing supplies industry across the nation. The company has expanded its range of refinishing supplies to keep up with the growing demands of professionals in the remodeling sector. Since 1982, European Coatings has been known for offering high-quality products that are built to last, catering to both residential and commercial needs.

Their full range of products including primers, top coats, and safety tools can be explored in detail at european coatings dot com/products. This showcases their commitment to providing comprehensive solutions for refinishing projects.

Industry experts often choose the company's products because of their fast drying time. While many competing products take two to three days to dry, European Coatings' solutions are ready in just 12 hours without any need for extra equipment like heat lamps. This quick drying time cuts down on downtime significantly, which is especially helpful for businesses like hotels, restaurants, and apartment complexes that

want to get back to work quickly without much disruption.

"Our main goal is to provide products that not only meet but go beyond our commercial clients' expectations," says Todd Schoen, a spokesperson for European Coatings Inc. "By shortening the drying time, we help contractors and businesses work more efficiently, which makes their own customers happier."

Bathroom and kitchen remodeling make up a big piece of the $233 billion home remodeling market in the U.S., and European Coatings sees their growing product line as timely. Contractors and business owners can count on high-quality, durable products from European Coatings, which come with warranties ranging from five to ten years. This reliability makes the company's offerings stand out in the industry.

European Coatings Inc. also takes sustainability seriously offering a range of low impact urethane bathtub coatings. These are not only better for the earth but also safer for professionals and DIY enthusiasts to use. More information on their sustainability practices can be found at european coatings dot com/sustainability. The company offers a wide range of colors and finishes, allowing users to personalize their projects to suit any design style.

"We aim to combine sustainability with flexibility in what we offer," Schoen explains. "We think about the needs of our clients for both quality and environmental responsibility. Our goal is to consistently back the industry with advanced, practical, and eco-friendly solutions."

To improve user experience and project results, European Coatings offers a variety of related products. These include everything from primers and top coats to etching and stripping agents, cleaners, bathmats, non-skid additives, tub fillers, as well as safety and mixing tools. They also provide spray equipment and exhaust systems, ensuring that professionals have all the tools they need to tackle a bathtub refinishing project from beginning to end.

European Coatings is all about quality and customer satisfaction. Their advanced formulations are designed to avoid common problems like chipping, peeling, and discoloration, promising a durable and attractive finish. The company's focus on new technology helps them stay at the forefront of the reglazing market, offering solutions that clients can trust and rely on.

By continuously expanding their product lines and supporting industry professionals, European Coatings is committed to leading the market. Their ongoing innovation and dedication set them apart as the needs of their customers change.

The company provides many ways for people to find out more or work with them through their website and accessible contact options at european coatings dot com/contact. European Coatings stands as a reliable partner in the bathtub reglazing field, delivering high standards in innovation and sustainability for professionals across the country.
