All In Tree Service of Dunwoody Expands with Acquisition of Vilchi?s Tree Service of Dunwoody

February 19, 2025

February 19, 2025 -
Dunwoody, GA ? All In Tree Service of Dunwoody has acquired Vilchi?s Tree Service of Dunwoody, strengthening its commitment to providing high-quality tree care services in the area. This expansion allows All In Tree Service to bring its expertise, safety standards, and customer-focused approach to more homeowners and businesses in Dunwoody.

All In Tree Service has built a strong reputation throughout Northwest Georgia for reliable tree removal, trimming, land clearing, and emergency storm response. With the acquisition of Vilchi?s Tree Service, the company now offers the same professional service to a larger customer base.

Rudy Perez, owner of All In Tree Service, expressed excitement about the acquisition. He stated, ?We are proud to continue serving Dunwoody with the same dedication and professionalism that our customers expect. Vilchi?s Tree Service had a strong presence in this community, and we will build on that foundation with our experienced team and commitment to customer satisfaction.?

The expansion brings more resources and advanced equipment to Dunwoody, allowing for faster response

times and more efficient tree care. Homeowners can expect expert tree trimming to promote healthy growth, safe tree removal for hazardous trees, and thorough land clearing for residential and commercial properties.

Tree removal remains a critical service, as unstable trees can pose serious risks to homes, vehicles, and power lines. According to the National Storm Damage Center, falling trees cause over $1 billion in property damage annually. Preventative trimming and removal help reduce these risks, making tree maintenance essential for property safety.

All In Tree Service also specializes in emergency storm cleanup. Severe weather can bring down trees and large limbs, blocking roads and damaging structures. The company?s trained crews respond quickly to clear debris, restore access, and remove hazards before they cause further damage. With storm activity increasing in Georgia, having a reliable tree service ready to assist homeowners is crucial.

Dunwoody homeowners and businesses will benefit from All In Tree Service?s experience in large-scale land clearing. Whether preparing a property for development, clearing space for new landscaping, or removing trees that interfere with utilities, the company ensures the job is completed safely and efficiently.

With the acquisition, All In Tree Service aims to uphold the strong customer relationships that Vilchi?s Tree Service established. Perez emphasized, ?We understand how important trust is in this business. Our team will continue to provide honest assessments, fair pricing, and quality workmanship. We want every customer in Dunwoody to feel confident when they call us for tree care.?

Tree health and maintenance play a key role in protecting property values and ensuring safety. According to the Arbor Day Foundation, trees improve property value by up to 15%, provide natural cooling, and reduce stormwater runoff. Regular tree maintenance prevents overgrown branches from damaging roofs, improves curb appeal, and supports tree health by allowing proper growth.

Customers in Dunwoody can now take advantage of All In Tree Service?s expanded resources, including modern equipment for precise and safe tree work. The company uses professional climbing gear, bucket trucks, and cranes to handle trees of all sizes, ensuring efficiency and safety on every job.

As part of its commitment to the Dunwoody community, All In Tree Service provides free estimates and consultations. Homeowners concerned about tree safety or overgrowth can schedule an inspection to determine whether trimming or removal is necessary.

Perez highlighted the company?s customer-first approach, stating, ?Every job is important to us. Whether it?s a small trimming project or a large tree removal, we treat each property with care. Our goal is to keep Dunwoody?s landscapes safe and beautiful.?
