

Fort Worth Plastic Surgeon Dr. Emily Kirby Named Texas Super Doctor for Seventh Consecutive Year

March 11, 2025

March 11, 2025 -
Fort Worth, TX?Fort Worth plastic surgeon Emily J. Kirby, MD has once again earned a coveted place on the Texas Super Doctors list, marking 2024 as her seventh consecutive year receiving this prestigious honor. Renowned for her commitment to surgical excellence and patient-focused care, Dr. Kirby?s repeated inclusion underscores her standing as a leader in her field and affirms the trust she has built among both her patients and medical peers.

?This award reflects our dedication to providing exceptional care and results to each of our patients,? commented Dr. Kirby. ?We thank our patients for trusting us on their journey to improved confidence.?

The Super Doctors designation is based on a rigorous, multi-step selection process designed to highlight physicians who have attained a high degree of professional achievement and peer recognition. Doctors throughout the state are asked to nominate those to whom they would entrust their own care, and this nomination phase is supplemented by independent research into candidates? credentials. The resulting list,

which comprises only a small percentage of all physicians in the country, is intended to help the public find doctors who exhibit a consistent track record of excellence.

An important element in Dr. Kirby?s success is her dedicated team, whose commitment to patient-centered service directly complements her surgical skill. Working alongside her at Kirby Plastic Surgery is a staff devoted to continuity of care, from the first consultation to the final postoperative visit. Dr. Kirby says she shares the honor with her hard-working team.

?I recognize that my team is the backbone of our practice,? she explained. ?We have sought to create a culture where everyone shares a dedication to patient safety and outcomes, and to treating patients with the level of care we would want for our own families. We all work together to ensure that every patient experiences compassionate care from the moment they walk through our doors, so I share the Super Doctor honor with each member of my staff.?

Board-certified by the American Board of Plastic Surgery, she completed medical school at Texas A&M College of Medicine, followed by a six-year integrated plastic surgery residency at The University of Kentucky in Lexington, Kentucky. She pursued further training with a fellowship in pediatric and craniofacial plastic surgery in Salt Lake City, Utah after residency. Today, she leads Kirby Plastic Surgery with the distinction of having also served as the first female Chief of Plastic Surgery at Texas Health Harris Methodist Hospital, the largest hospital in Fort Worth, Texas.

?I work to ensure that I offer my patients the most advanced surgical techniques,? said Dr. Kirby. ?My goal is always to combine precision with an artistic eye, so each procedure is tailored to the individual.?

This seven-time recognition reflects both Dr. Kirby?s reputation for delivering exceptional results and her passion for fostering positive relationships with her patients. Dr. Kirby?s personal philosophy centers on compassion and open communication. She believes that listening closely to her patients? goals and concerns creates a trusting environment in which patients feel comfortable discussing sensitive topics related to their bodies and appearance. Her approach aims to empower patients to make informed decisions.

?I believe the best outcomes start with a genuine conversation between doctor and patient,? Dr. Kirby noted. ?My philosophy is to partner with my patients, guide them through the decision-making process, and help them feel supported at every stage of their journey.?

Recognizing the diverse needs of her patients, Dr. Kirby established Kalos Medical Spa for advanced non-surgical treatments, including injectables, laser therapy, and aesthetic non-surgical skincare options. These services allow for more customized treatment plans that address a wide array of cosmetic concerns with minimal- and no-downtime options. And to support patients? privacy and comfort during surgery, Dr.

Kirby built the Quad A-accredited City Surgery Center on-site, as well. This comprehensive environment reflects Dr. Kirby?s dedication to delivering care in a manner that is both convenient and safe for her patients.

?We want each new patient we meet to experience a warm atmosphere where meticulous standards of safety, technique, and personalized care intersect,? Dr. Kirby commented.
