Knowledge Train Launches Updated AgilePM v3 Training in London

March 10, 2025

LONDON, UK - March 10, 2025 -
Knowledge Train, a leading provider of professional training courses, has announced the introduction of its updated APMG AgilePM (Agile Project Management) classroom training, now based on the recently released AgilePM v3. This update, launched in London, signifies a significant step forward for aspiring and current project management professionals. The new version of AgilePM is packed with enhancements designed to align with the latest advancements in agile methodologies, project management practices, and technology, offering a more human-centred approach. This development is crucial for Knowledge Train?s students, who will now benefit from innovative strategies and tools that redefine how agile projects are managed, ensuring they stay at the forefront of industry standards.

The latest iteration of AgilePM underscores a shift from simply delivering products to delivering tangible business value, a transformation that aligns with current industry demands. Jay Gao, Operations Manager at Knowledge Train, remarked, ?The introduction of AgilePM v3 is a testament to our commitment to providing the most relevant and advanced training. This update not only enhances our course offerings but also equips our students with the skills needed to lead agile projects effectively in today?s dynamic business environment.? This statement highlights the strategic importance of adapting training to meet evolving

professional requirements, ensuring that students are well-prepared to tackle the challenges of modern project management. The focus on delivering value is expected to resonate well with organisations aiming to enhance their project outcomes.

For those interested in advancing their agile project management expertise, Knowledge Train's updated courses are now available for enrolment. These courses offer comprehensive insights into AgilePM v3?s new features, including enhanced strategies for managing multi-team projects and risk management. Interested individuals can find more information and enrol in these courses by visiting Knowledge Train?s website at AgilePM course. This update not only represents an opportunity for personal and professional growth but also ensures that students receive training that is both current and comprehensive, meeting the needs of today?s diverse project environments. By embracing these improvements, participants can enhance their capabilities and contribute positively to their organisations.

Jay Gao further commented, ?Our updated AgilePM training is tailored to foster agile leadership and equip project managers with the latest tools and methodologies. It?s an important time for those in project management to enhance their skills with this cutting-edge certification.? The transition to AgilePM v3 is expected to significantly impact how projects are approached, with a greater emphasis on value and leadership rather than traditional management roles. This comprehensive training ensures that students are not only equipped with the latest agile practices but also positioned to lead and innovate in their respective fields. For further details, prospective students can also explore Agile training on Knowledge Train?s website.

The introduction of AgilePM v3 could herald a new era in project management, where the focus shifts from merely managing tasks to leading projects that deliver substantial business value. As more organisations embrace these methodologies, the demand for skilled agile leaders is likely to rise, creating numerous opportunities for certified professionals. This evolution in training not only prepares individuals for immediate challenges but also positions them for future advancements in their careers. By adopting these new practices, companies can expect to see improvements in project outcomes, employee satisfaction, and overall efficiency, setting a precedent for a more agile and effective business landscape. The emphasis on leadership and value creation is likely to drive positive change across industries.

For more information about Knowledge Train and its wide array of training programmes, interested parties are encouraged to visit the company?s homepage. With a commitment to excellence and innovation, Knowledge Train continues to support professionals in achieving their career goals through comprehensive and up-to-date training solutions. This latest update in AgilePM training is just one example of how Knowledge Train is leading the way in professional education. By continually adapting to the needs of the market, the company ensures that its students are well-prepared to meet the challenges of contemporary

project management.
