

All Out Inspired Releases Bike Phone Mount Video And User Guide

January 27, 2016

January 27, 2016 - PRESSADVANTAGE -

All Out Inspired has announced that they have released a brand new user video guide and review for their bike phone mount. The video clearly demonstrates the benefits of a bike phone mount and also shows it while in use. It shows bike users how much they can benefit from the product. The video, which can be viewed at <https://www.youtube.com/watch?v=Wudb6vY43X8>, is already proving to be very popular, as is the bike phone mount.

Andy M. from All Out Inspired says: "We want to make sure bike riders can enjoy their time on their bike, while being safe at the same time. Our video clearly shows how the bike mount should be installed, as well as how it should be used. The bike mount is suitable for a variety of phones and can be used to provide people with GPS, or to enable them to listen to music while they are going on a bike ride."

The video also highlights a number of real-life user experiences where the users have expressed just how happy and satisfied they were with the bike mount. They point out that it is easy to use and install and that the mount is of excellent quality. They have also raved about the fact that it looks so solid and professional and that it enables them to get more from their phones while out on rides.

Meanwhile, All Out Inspired, with website at <http://alloutinspired.com/>, has been developing a number of products, which are all designed to increase comfort and safety during bike rides. They include a bike phone mount, and also a comfortable bike seat and a safety helmet. All have been created to be durable and of exceptional quality, as part of the company's overall mission.

The bike mount has proven to be a very popular product. "This All Out Inspired bike phone mount is very well-made and sturdy," says Mrs B. "My husband likes to ride bikes around the neighborhood when he feels stressed so this bike mount is perfect for him. I don't want him to using one hand to ride the bike and using the other hand to answer phone calls."
