# Pediatric Eye Specialists Hosts Grand Opening of Keller Location

*March 11, 2025*

March 11, 2025 -
Pediatric Eye Specialists, the leading provider of pediatric ophthalmology services in North Texas, is excited to announce the grand opening of its newest clinic in Keller. The event will take place on Wednesday, March 12th, from 4:00 PM to 6:00 PM at 129 Chandler Rd, Keller, TX 76248. Families and community members are invited to attend the celebration, which will feature light hors d'oeuvres and refreshments.

With a long-standing reputation for excellence in pediatric eye care, Pediatric Eye Specialists is committed to providing children with the highest level of specialized vision care. This new Keller location marks another step in expanding access to top-tier pediatric ophthalmology services, joining existing clinics in Fort Worth, Denton, Mansfield, and Prosper. The Keller clinic will offer the same comprehensive services that have made Pediatric Eye Specialists the premier destination for children's vision care in Texas.

The clinic provides expert diagnosis and treatment for a wide range of pediatric eye conditions, ensuring that children receive early intervention and customized care. Amblyopia, commonly known as lazy eye, is one of the most frequently treated conditions, as it can significantly impact a child?s vision development if left unaddressed. Strabismus, or misalignment of the eyes, is another common concern that requires expert care

to prevent vision impairment. The clinic also specializes in treating congenital cataracts, a condition where clouding of the eye's lens is present at birth, which can lead to serious visual challenges if not treated early. Other conditions addressed at Pediatric Eye Specialists include ptosis, where the eyelid droops and affects vision, and retinopathy of prematurity, a condition affecting premature infants that can lead to long-term vision problems.

The Keller clinic will be led by a highly skilled team of pediatric eye specialists, including Dr. Eric Packwood, Dr. David Skanchy, Dr. Michael Hunt, Dr. Emily Horn, and Dr. Alicia Derry. Together, they are committed to ensuring that every patient at the Keller location receives compassionate and effective care tailored to their unique needs.

In addition to its comprehensive medical services, Pediatric Eye Specialists works in close partnership with PES Special Eyes Optical, the only eyewear shop in Texas exclusively dedicated to children. Located within the same facility, PES Special Eyes Optical offers an extensive selection of more than 500 styles of frames designed specifically for kids and tweens. This unique integration allows families to receive specialized eye care and find the perfect eyewear solutions in one convenient location. The optical shop also provides contact lens fittings for children and teens who prefer alternative vision correction. With experienced opticians who understand the specific needs of young patients, PES Special Eyes Optical ensures a seamless experience from diagnosis to corrective eyewear.

The expansion into Keller reflects Pediatric Eye Specialists? ongoing commitment to improving access to pediatric eye care across North Texas. Vision disorders in children are more common than many parents realize, with studies showing that approximately 1 in 17 preschoolers and 1 in 4 school-aged children require vision treatment. Early detection and intervention are essential for ensuring that children do not experience developmental delays or academic struggles due to untreated vision problems.

Pediatric Eye Specialists is deeply committed to making vision care accessible to all families. The practice actively supports Medicaid patients and partners with Cook Children?s Medical Center to provide specialized surgeries and advanced treatment options. Their dedication to high-quality, compassionate care ensures that every child, regardless of financial background, can receive expert eye care.

The grand opening event on March 12th will give families the opportunity to tour the new Keller facility, meet the expert medical team, and learn more about the specialized services available. The event will provide a welcoming atmosphere where parents can ask questions, gain insights into pediatric vision care, and experience firsthand the compassionate approach that Pediatric Eye Specialists is known for.

Pediatric Eye Specialists is proud to bring its renowned pediatric eye care to Keller, ensuring that families in the area have access to the best possible vision care for their children. The practice remains dedicated to helping every child achieve their brightest future through expert diagnosis, advanced treatments, and a commitment to compassionate care.
