ReVIDA Recovery Announces New Facility in Fayetteville

March 13, 2025

FAYETTEVILLE, TN - March 13, 2025 -

Fayetteville, TN ? ReVIDA® Recovery is a local addiction recovery organization that specializes in treating opioid use disorder (OUD) using medication-assisted treatment (MAT). They strive to support as many people as possible in Appalachia through their recovery from OUD. ReVIDA® is excited to announce the recent opening of a new facility in Fayetteville, TN.

?Taking the first step to overcoming your opioid use disorder is brave, and it?s worth how hard it can be. At our Fayetteville location, we?ll help you manage the physical, mental, and emotional concerns that come with addiction. With our expertise and your determination, you can achieve lasting recovery. Even if you stumble, we?ll support you and help you get back on your feet with empathy and understanding. Recovery isn?t easy, but we?re dedicated to creating an environment that makes it feel a little less overwhelming. Our treatment is tailored to suit you and your needs and gives you all the tools you need to build an opioid-free future,? their website states.

At this location, ReVIDA® Recovery is offering outpatient MAT, individual therapy, group therapy, and family therapy. Outpatient treatment is designed to be flexible so patients with busy schedules can receive the care

they need to overcome OUD. ReVIDA® will also work to connect patients with community resources that will help them with recovery, including childcare, education, and employment services.

?When you arrive at our facility in Fayetteville, you?ll be met with a warm environment and our welcoming staff. You?ll then talk with our team about beginning MAT and starting your healing process. You?ll have a series of meetings that will last anywhere from 15 to 50 minutes,? their website continues.

Patients will meet with a doctor, who will prescribe them either Suboxone or Sublocade. Their doctor can also prescribe them any additional medications they need to be successful in recovery. They will also meet with a care coordinator, who will help them navigate any community resources that would benefit them. Finally, they?ll meet with a therapist who will empower them to work through the underlying causes of their OUD.

?You?ve got this. You have more power than you think, and we?ll work together to conquer your addiction.

?If your recovery journey has led you back to opioids before ? even if it?s multiple times ? healing is still possible. You don?t have to be ashamed of that, and you?re still worthy and capable of recovery. We know you can overcome this, and we?ll be at your side to help you push past every obstacle in your way to achieving a fulfilling, opioid-free life.

?ReVIDA® Recovery offers a safe, welcoming environment where you can tackle your opioid use disorder and take the necessary steps to find recovery. We?ll have your back every step of the way,? their website concludes.

ReVIDA® Recovery is prepared to treat even the most persistent cases of OUD at their Fayetteville location. Patients can expect to be seen the day after their initial call or sooner. The Fayetteville facility is located at 4140 Thornton Taylor Pkwy., Fayetteville, TN 37334.

ReVIDA® Recovery has extensive experience treating OUD throughout Appalachia. Their treatment program requires outpatient therapy sessions in addition to MAT with Suboxone or Sublocade. They know MAT is successful in treating OUD because they?ve seen it save lives. To learn more about ReVIDA® Recovery, call 423-631-0432 or visit their website.
