March 17, 2025

Groveland, Massachusetts - March 17, 2025 -
Cicoria Tree and Crane Service in Groveland has announced its expansive range of tree care services for the Groveland, MA area. A major part of their focus is tackling the Emerald Ash Borer. This insect is causing a lot of trouble for ash trees throughout the state. The company is located at 22 7 Star Rd, Groveland, MA 01834, and can be reached at (802) 348-2138. For more details on their services, visit their website.

The Emerald Ash Borer (EAB) is a bug that made its way from Asia and now poses a huge threat to the ash trees in Massachusetts. It has already affected over 200 communities. If it continues unchecked, it could kill a lot of trees. Cicoria Tree and Crane Service is stepping up to offer plenty of help, including expert treatments and preventive care for trees infested with EAB. "Our certified arborists use their expertise to diagnose and treat insect diseases like the Emerald Ash Borer," says Mark Cicoria, the owner of the service. "Prompt action is necessary to protect our local ash trees from this widespread threat." Their website provides more information and resources on dealing with the EAB.

The team at Cicoria Tree and Crane Service is made up of certified arborists and applicators who offer a wide range of solutions to keep trees healthy and secure. Besides treating for EAB, their services cover tree pruning, trimming, fertilization, and treatment of various diseases. Their commitment ensures that trees stay strong and free from common diseases. Detailed descriptions of these services can be found on their official website.

Safety is a big deal when they remove trees, even more so in risky situations. They use cranes to carefully manage tree removals, even when conditions get tough. This method not only makes sure everything is done precisely, but it also lowers the risk of damaging the surrounding area. "Safety is always our top priority," Mark Cicoria emphasizes. "Having a reliable plan and adhering strictly to safety guidelines has helped us maintain a safe work environment." Learn more about their crane services through their online resource.

For residents dealing with sudden tree emergencies, Cicoria Tree and Crane Service offers fast help. This service is especially important during storms when trees might become hazardous. Their team is trained to act quickly and efficiently to prevent damage or danger. Learn more about their emergency tree services on their website for quick assistance.

Removing stumps is another key service they provide. Once trees are taken out, their specialists use advanced equipment to grind away stumps, leaving the landscape clean and untouched. Information on their stump grinding services is available on their website. They even offer free arborist consultations, giving property owners tailored assessments on how best to care for the health and safety of their trees.

Cicoria Tree and Crane Service doesn't just stop at immediate tree care. They are also dedicated to educating the community on preventive actions against dangers like the EAB. They share useful tips and strategies for handling firewood and untreated wood properly, aiming to reduce the spread of this invasive bug. Their educational resources are available online for further guidance.

The company takes a proactive approach with preventive treatments that include chemicals like azadirachtin and bifenthrin. These treatments help control the EAB's life cycle and protect the area's ash trees, ensuring they continue to thrive. Visit their website for a more thorough understanding of these treatments and their benefits.
