

Swiss Med Team Expands Family Doctor Services with Naturopathy in Winterthur

April 04, 2025

Winterthur, Zurich - April 04, 2025 -
Swiss Med Team is excited to announce it will launch naturopathy services in January 2025 at its Winterthur location. Known for offering a wide range of healthcare services, the center will now add naturopathic treatments, giving patients more options for their health and wellness needs. By combining standard and alternative medicine, Swiss Med Team aims to support healthy living with a blend of nutrition and natural therapies.

At Swiss Med Team, the focus has always been on providing personalized care that meets the unique needs of each patient. The addition of naturopathy to their services will complement existing offerings like general practitioner services, treatments for cardiovascular and gastrointestinal diseases, metabolic disease care, and check-up exams. This move underlines the center's dedication to offering diverse treatment choices and enhancing patient care.

A significant part of these new services will be TEN nutrition counseling. These sessions will guide patients

on how to maintain a healthy diet that promotes overall wellness and balance in their lives. By embracing naturopathy, Swiss Med Team intends to enrich the conventional medical care it provides with holistic health options.

"Our goal is to help our patients achieve optimal health by providing comprehensive care options," said A. Jalali, a spokesperson for Swiss Med Team. "Adding naturopathy to our services reflects our commitment to addressing a variety of health issues, giving our patients access to a complete range of medical care."

Swiss Med Team is well-regarded in Winterthur and nearby areas for its patient-first approach to care. Whether it's emergency services or chronic illness management, the center emphasizes efficient and compassionate healthcare. The upcoming naturopathy services are expected to strengthen Swiss Med Team's position as a leading healthcare provider in the area. Directions to the practice are available via this link: https://maps.app.goo.gl/6qN3tJnEAeS9R1xt8, ensuring easy access for those seeking medical care in Winterthur.

Currently, Swiss Med Team operates Monday through Friday, delivering medical services without extended wait times. Known for its prompt emergency care, the center is dedicated to providing immediate attention to urgent medical needs. The involvement of naturopathy in their service lineup strengthens their commitment to high-quality healthcare delivery.

Patients, both old and new, can look forward to this expansion, which is aimed at promoting better health outcomes by merging nutritional guidance with traditional medical solutions. Although the naturopathy services will be officially available at the start of 2025, planning is already in progress to integrate these services without a hitch.

A. Jalali further commented, "Our dedication to patient health drives us to continuously enhance and expand our offerings. By integrating conventional and alternative medical practices, we can provide a more comprehensive healthcare experience that honors each patient's unique needs."

Introducing naturopathy is set to positively impact patients, offering them more resources for natural and holistic health management. Swiss Med Team's effort to include these services reflects its adaptability and commitment to meeting the changing needs of its patients.

Swiss Med Team is confident that adding naturopathy will enhance its already wide array of services, ensuring all patients receive tailored and effective medical care. The center remains dedicated to offering comprehensive and quality care by integrating innovative treatments with proven medical practices.
