Las Vegas, NV - March 24, 2025 - PRESSADVANTAGE -

Dr. Andrea Adams-Miller Introduces a New Era of Influence, Combining Public Relations (PR) with Neuroscience & Neurolinguistic Programming (NLP)

The Red Carpet Connection, a leading public relations firm, has officially rebranded to become the first public relations (PR) agency to fully integrate Ethical Neuroscience and Neurolinguistic Programming (NLP) into its media strategies. Under the leadership of Dr. Andrea Adams-Miller, the firm now offers a science-backed approach to public relations (PR), influence, and brand positioning, helping clients increase the likelihood of securing high-impact media placements while building lasting authority.

“The traditional Public Relations (PR) model is outdated,” said Dr. Andrea Adams-Miller, CEO of The Red Carpet Connection. “Most agencies rely on mass outreach and generic messaging, and the reality is that people make decisions based on subconscious influence and cognitive triggers. By ethically applying neuroscience and NLP, we craft PR campaigns that connect on a deeper level, drive engagement, and

convert audiences into loyal advocates.?

Redefining PR with Science & Strategy

The rebrand marks a strategic shift toward a more effective, psychology-driven approach to public relations. The Red Carpet Connection now specializes in:

Neuroscience-Based Messaging ? Crafting press releases, speeches, and brand narratives that stick in the audience's mind.

NLP-Enhanced Media Pitching ? Using subconscious influence techniques to increase the likelihood of high-value media placements.

Reputation & Crisis Management ? Applying behavioral psychology to reframe public perception and rebuild trust.

Strategic Influence & Thought Leadership ? Positioning executives, celebrities, and corporations as industry authorities using psychology-driven branding techniques.

Why Now?The Shift in Media & Influence

With the media landscape evolving rapidly, businesses need more than just press coverage—they need a proven public relations PR strategy that persuades and converts. The Red Carpet Connection's science-driven methodology ensures that every message, campaign, and media placement is rooted in how people actually think, process information, and make decisions.

"In today's world, the brands that understand human behavior and communication psychology are the ones that win," said Dr. Andrea Adams-Miller. "Our rebrand is more than repositioning ourselves as a public relations firm—it's about reshaping the PR industry and giving our elite clients a competitive edge."

Experience the Future of PR

The Red Carpet Connection is now accepting new client applications from elite clients serious about leveraging neuroscience-based public relations to enhance their media presence, brand authority, and audience engagement.
