Li & Liao Optometry Introduces Nuance Audio Glasses for Enhanced Sight & Sound

March 25, 2025

BAKERSFIELD, CA - March 25, 2025 -
Li & Liao Optometry Introduces Nuance Audio Glasses for Enhanced Sight & Sound

Bakersfield, CA ? Li & Liao Optometry is proud to introduce Nuance Audio, the latest breakthrough in smart glasses technology from EssilorLuxottica. Combining advanced vision correction with integrated hearing enhancement, these revolutionary glasses provide a seamless experience for individuals looking to improve their sight and sound in one sleek, wearable device. With this addition, Li & Liao Optometry reaffirms its position as a modern eye care technology leader, offering patients the latest advancements to enhance their quality of life.

?Technology in eyewear has evolved tremendously, and we?re excited to bring Nuance Audio to our patients,? said Dr. Dawson Li, O.D., co-founder of Li & Liao Optometry. ?Many of our patients?particularly those in the aging population?experience vision and hearing challenges. With these smart glasses, they don?t have to choose between functionality and style; they get both in one convenient package.?

Nuance Audio Glasses are designed to discreetly integrate hearing assistance within stylish eyewear frames. Unlike traditional hearing aids, which can be cumbersome or stigmatized, these glasses offer a modern solution by providing seamless audio amplification without drawing attention. Combining optical and auditory enhancements allows users to engage in conversations with clarity while enjoying optimal vision correction.

Nuance Audio provides an elegant and practical alternative for individuals who have been hesitant to explore hearing solutions. The discreet built-in technology enhances speech clarity and reduces background noise, making it easier for wearers to converse in various environments.

?The future of eyewear isn?t just about seeing better?it?s about enhancing overall sensory experiences,? said Dr. Yuh-Jen Liao, O.D., co-founder of Li & Liao Optometry. ?By integrating hearing technology into everyday glasses, Nuance Audio changes how we think about vision and auditory health. This is a game-changer for patients who want a discreet and stylish way to improve their hearing.?

These cutting-edge glasses are designed for a wide range of users, particularly:

? Aging adults who experience mild to moderate hearing loss want an inconspicuous hearing solution.

? Professionals and social individuals who need enhanced speech clarity in noisy environments.

? Anyone looking for a seamless way to combine vision and hearing support without the hassle of multiple devices.

As leaders in optometric innovation, Li & Liao Optometry is proud to offer patients access to Nuance Audio, ensuring they receive the best eye care and overall sensory wellness.

Patients interested in Nuance Audio glasses are invited to visit any of Li & Liao Optometry?s Bakersfield locations for a personalized consultation and demonstration. The practice?s experienced eye care professionals will help patients find the perfect frame fit and discuss the various lens and hearing customization options available.

Li & Liao Optometry is currently accepting appointments for new and existing patients. Those interested in scheduling a Nuance Audio consultation or learning more about these innovative smart glasses can call:
