Cool Blew Inc. Expands Solar Division with Emergency Repair Services in Phoenix

April 14, 2025

Peoria, AZ - April 14, 2025 -
Cool Blew Inc., a family-owned HVAC repair company, is expanding its solar services by offering emergency solar repair in Phoenix. This new service is designed to deliver quick help for unexpected solar system problems, aligning with the company's ongoing commitment to sustainable energy solutions in the area.

Scott Proctor, Operations Manager at Cool Blew Inc., highlighted the significance of this service. "Solar energy is a growing part of our communities, and ensuring these systems work efficiently is essential. We are providing reliable solutions for those unexpected solar issues that can disrupt energy supply," Proctor said. This addition reflects Cool Blew's larger goal of providing comprehensive solutions for energy efficiency and sustainable home services. Further details about their HVAC and other energy-saving services can be found at coolblew.com/services/.

Alongside this new service, Cool Blew Inc. continues to offer a variety of established services, including air conditioning repair, heating, plumbing, and maintenance plans. The company also prides itself on delivering

high-quality HVAC products and is known for skilled, professional service. Adding emergency solar repair services enhances their dedication to excellence and customer satisfaction.

In Peoria, Cool Blew Inc. is recognized as one of the leading solar panel installers in Peoria, offering a full range of solar services such as installation, maintenance, and now emergency repair. By expanding their solar division, they reinforce their role as a go-to provider of solar technologies. The new emergency repair service guarantees that clients can enjoy uninterrupted solar power.

"Being able to step in when customers need us the most is crucial," Proctor added, emphasizing the company's dedication to customer care and prompt service. This addition ensures customers can quickly fix issues without lengthy downtimes, a key benefit for homeowners relying on solar power who want to maintain their preferred energy source without disruptions.

Besides emergency services, Cool Blew is constructing a comprehensive support network for home energy, offering insulation, KVAR for energy efficiency, and duct sealing. Through these services, Cool Blew aims to help homeowners significantly cut down their utility costs. Preventive maintenance agreements also play a role in avoiding larger, more expensive repairs.

Cool Blew Inc. serves multiple locations, including Peoria, Surprise, Phoenix, Glendale, Sun City, Sun City West, Scottsdale, Mesa, Gilbert, Tempe, and Chandler. This wide service area ensures that residents across these regions can benefit from their expertise and support.

Cool Blew Inc. is committed to maintaining high industry standards across all services. As a factory-authorized dealer and certified installer for reputable brands like Bryant, the company ensures reliable product deliveries. With the backing of power utilities such as SRP and APS, they enhance their ability to provide top-quality service.

Their tailored approach to service is central to their philosophy. As a family-owned business, Cool Blew Inc. values personal connections with its clients. Customer feedback and engagement via platforms like Facebook, Twitter, and Angi are key. Their blog also offers valuable insights into HVAC and solar topics, fostering an informed customer base. Detailed articles about HVAC and sustainable energy solutions can be accessed on their blog.

By expanding to include emergency solar repair in Phoenix, Cool Blew shows they are responsive to customer needs and committed to improving service reliability and customer satisfaction. This strategic addition focuses on the growing need for solar energy solutions.

As Cool Blew Inc. continues to grow, their dedication to high-quality service and community focus stays strong. The introduction of emergency solar services underscores their commitment to providing dependable and comprehensive service solutions across Arizona. Through this continued growth, Cool Blew solidifies its position as a leader in both HVAC and solar services.
