Mars Forklifts Expands to Offer Enhanced Forklift Hire Services to Meet Industry Demands

April 03, 2025

April 03, 2025 -
Mars Forklifts, a well-known company in Sydney, Australia, is pleased to announce an expansion of its forklift hire services. With more than 50 years of combined experience, Mars Forklifts offers a wide range of equipment to meet the needs of various industries, and they hope to provide even better service and support with this expansion.

Mars Forklifts is recognized for its wide selection of forklifts, and the expansion aims to increase the variety of their fleet to better meet the needs of users in fields like warehousing, events, cold storage, food and beverage, pharmaceuticals, timber, steel, and manufacturing. Their fleet features electric forklifts, which are ideal for indoor use due to their reduced noise and emissions. They also have scissor lifts for safe and efficient work at heights. For outdoor and heavy-duty tasks, they offer sturdy LPG and diesel forklifts. Warehouses often rely on reach trucks, which are also part of their diverse inventory. More details about these expanded services can be found at https://www.marsforklifts.com.au/forklift-hire/.

Alex Conti, a representative from Mars Forklifts, stated, "By expanding our offerings, we want to make dependable equipment more accessible to businesses. Our aim is to provide each client with the perfect

piece of equipment to boost their productivity, whether they need it short-term or for an extended period."

In addition to enhancing their hire services, Mars Forklifts continues to sell both new and used forklifts. Their new forklifts come from respected manufacturers, ensuring quality and performance. Used forklifts go through careful inspections and refurbishments to meet high industry standards, providing affordable options for businesses.

Their strong commitment to quality is supported by a large, independent service team, one of the biggest in Australia, which helps with repairs to minimize any downtime for clients. Mars Forklifts doesn't just stop at hiring and selling equipment. They emphasize fast and efficient repair services. Their team of factory-trained technicians carries out repairs quickly and thoroughly, reducing any disruption to businesses. The Mars Warranty Plan, available for most used forklifts, provides extra assurance. More information can be found at the Mars Forklifts official website at https://www.marsforklifts.com.au/.

Mars Forklifts takes pride in creating solutions that fit the specific material handling needs of different industries. They're willing to visit customer sites to give recommendations that match a business's operational needs and budget. This approach aims to maximize efficiency and deliver results for their clients.

"Customer satisfaction is the heart of what we do," says Conti. "We focus on understanding our client's unique needs and providing solutions that improve their operations. By offering access to the latest forklift technology and focusing on customer service, we look forward to building long-term relationships."

Mars Forklifts remains dedicated to providing excellent service and meeting industry needs, playing a vital role in market improvement. By expanding their hire services, they continue their mission to support businesses with high-quality solutions that are reliable over time.

If businesses are looking for more information on Mars Forklifts' expanded hire options, sales, and repair services, contact information is available on their contact page at https://www.marsforklifts.com.au/contact/.
