Tree Amigos Introduces Comprehensive Tree Care Services to Enhance Property Health and Safety Across East Sussex

April 03, 2025

Lewes, ES - April 03, 2025 -
Lewes, East Sussex ? Tree Amigos Professional Tree Care, a trusted tree care company based in Lewes, East Sussex, is excited to announce its comprehensive range of tree care services, now available for residents and businesses across Lewes, Brighton, Haywards Heath, Eastbourne, Burgess Hill, and the surrounding areas. Known for its strong commitment to professional standards and sustainable practices, Tree Amigos is setting new standards for expert tree management in East Sussex, offering a full suite of services designed to enhance outdoor spaces' safety, beauty, and health.

With over 20 years of industry experience, Tree Amigos' skilled team provides services that include expert tree pruning, safe and controlled tree removal, and detailed health consultations. Each service focuses on environmental responsibility and respect for the local landscape, ensuring clients receive effective solutions supporting aesthetics and ecological balance. As urban areas expand and tree preservation becomes increasingly essential, Tree Amigos is dedicated to helping property owners care for their trees in a way that promotes safety, growth, and long-term sustainability.

"Trees are a vital part of our communities and landscapes, but they require proper care to remain healthy and safe," said Iain Hickinbottom, Managing Director of Tree Amigos. "Our mission is to provide the highest level of professional tree care for East Sussex, supporting property owners with the knowledge, skill, and dedication they need to maintain healthy trees. Our service is designed to give our clients peace of mind and a beautiful, safe outdoor environment."

One of Tree Amigos' primary services is tree pruning, a specialised process that requires skill and precision to maintain tree health and structure. Proper pruning promotes the development of a strong structure, encouraging trees to grow in a balanced form that reduces the risk of falling branches and improves airflow, which can deter diseases. For property owners, regular pruning enhances the beauty of trees and helps prevent damage to buildings, vehicles, and other property during storms or high winds. Tree Amigos' certified

arborists are experienced in techniques such as crown thinning, crown lifting, and reduction, each of which is applied according to the unique needs of the tree and the client's goals.

In addition to pruning, Tree Amigos provides tree removal services, a necessity for damaged, diseased, or otherwise hazardous trees. Tree removal is a critical service for protecting property and public safety, especially in cases where large trees have become unstable or are located close to buildings, power lines, or pedestrian areas. Tree Amigos' team follows a careful, systematic approach to removal, using sectional dismantling techniques to lower each part of the tree safely and efficiently. By utilising advanced rigging equipment and adhering to high safety standards, the company ensures that even large or complex tree removals are completed with minimal disruption to the surrounding environment.

Tree Amigos also offers tree reports and consulting, providing valuable insights for property owners concerned about their trees' long-term vitality. During an assessment, Tree Amigos' arborists examine each tree's condition, checking for signs of disease, pest infestation, or structural weaknesses that could compromise its health or safety. This service benefits properties in conservation areas or those with Tree Preservation Orders (TPOs), where regulations may affect the type of tree care allowed. By providing expert advice and strategies for proper tree management, Tree Amigos helps clients confidently navigate these requirements.

"With the growing emphasis on preserving natural landscapes and promoting urban greenery, proper tree care is more important than ever," the team at Tree Amigos explained. "Their services are designed to help clients keep their trees healthy and beautiful while meeting all local conservation and safety guidelines. Tree Amigos offers that balance between tree preservation and property protection, which they believe is essential for East Sussex."

Tree Amigos supplies seasoned firewood from local, responsible tree care operations for property owners seeking a safe and sustainable heat source. Each log is dried for at least 18 months, ensuring optimal burn quality and heat output. This service not only repurposes wood from tree removals but also supports Tree Amigos' commitment to environmental responsibility by reducing waste and providing customers with a sustainable alternative for home heating.

Tree Amigos has become known for its eco-conscious approach, reflected in its operations. From utilising advanced techniques to minimise environmental disruption during tree care to ensuring that all waste is responsibly managed and recycled, the company strives to uphold best practices in sustainable arboriculture. With certifications from the National Proficiency Tests Council (NPTC) and the International Society of Arboriculture (ISA), Tree Amigos adheres to industry standards for safety, quality, and environmental responsibility.

Tree Amigos encourages residents and businesses in Lewes, Brighton, Haywards Heath, Eastbourne, Burgess Hill, and beyond to use their expert services to protect, enhance, and maintain the beauty and safety of their properties. Whether through routine tree maintenance, hazardous tree removal, or consultation for tree health, Tree Amigos is committed to making tree care accessible and beneficial for the entire community.

"They are proud to be part of a community that values natural landscapes and responsible tree care," said the team at Tree Amigos. "Their services are designed to support property owners in making the most of their trees and landscapes while ensuring safety, beauty, and sustainability. They look forward to helping East Sussex residents care for their trees with expertise, care, and a deep respect for the environment."

Tree Amigos Professional Tree Care is a Lewes-based tree care company offering professional services across East Sussex, including Lewes, Brighton, Haywards Heath, Eastbourne, and Burgess Hill. Specialising in tree pruning, tree removal, tree reporting, and consulting, Tree Amigos prioritises safety, customer satisfaction, and environmentally responsible practices.
