

Life-Saving Rehab Center for Addiction Helps Couple Overcome Severe Substance Abuse: "They Made Me Believe in Myself Again," Says Former Patient

April 18, 2025

JURUPA VALLEY, CA - April 18, 2025 -

Riverside, CA ? Resurgence Behavioral Health, a leading alcohol and drug rehab center in Riverside, California, is again recognized for its unwavering commitment to saving lives and helping people rediscover hope. With comprehensive substance abuse treatment options, Resurgence has become a trusted name throughout the East and West areas of Riverside County, including Edgemont, Norco, Rancho Del Sol, and the March Air Force Reserve Base community. A five-star review from a former patient named Christopher underscores the life-changing support the center continues to provide to people in need.

Christopher?s review is a heartfelt plea to others who are suffering. ?If you struggle with addiction, please call this place! Do yourself a favor and give yourself a chance,? he wrote. ?Me and my girlfriend were both struggling with severe substance abuse issues and we tried getting into treatment for six months but we ran into every road block with other places. My girlfriend randomly called here and they got us in that night and even helped me figure out my insurance. They saved our lives.?

These words reflect the reality faced by many people across Riverside and the greater Southern California region. The journey to recovery often feels overwhelming, especially when navigating logistical challenges like finding a qualified alcohol rehab center, understanding insurance coverage, or simply getting accepted into a program. What sets Resurgence apart is its ability to break down those barriers quickly and compassionately, making it easier for patients to get the help they need when they need it most.

As an established treatment center, Resurgence offers a full continuum of care that begins with safe, medically supervised drug detox and alcohol detox services. Patients are welcomed into a supportive, healing environment where they can stabilize physically and start addressing the mental and emotional roots of their challenges. Programs are customized for each person and may include trauma-informed therapy, one-on-one counseling, 12-step meetings, relapse prevention planning, and holistic services such as fitness therapy and life skills training.

Christopher's praise of the staff further reinforces the Riverside addiction program?s reputation for excellence. ?The staff is unbelievable to say the least. From the maintenance crew all the way up to the program managers are all amazing human beings that all really care,? he said. ?I was just waiting to die until we went here and they made me believe in myself and gave me the tools for a better life. The staff and clients all became like my family.?

That sense of family and connection is central to Resurgence?s approach. People who enter treatment are not treated as numbers?they are embraced as part of a healing community where long-term recovery is the goal. With facilities near neighborhoods like Norco and Edgemont, the center is a lifeline for many who might otherwise feel isolated or out of options. The team works tirelessly to ensure that every patient has the resources and support they need to succeed in building a healthier life.

For those searching for ?alcohol rehab near me? or ?drug rehab in Riverside, California,? Resurgence offers a high-quality solution that emphasizes personalized care and proven methods. Its alcohol treatment center and alcoholism treatment program are staffed by experienced professionals who understand the complexities of substance use and are committed to long-term wellness. The facility?s beautiful and welcoming campus also creates a safe space where people can step away from the chaos of their past and focus on healing.

From insurance assistance to aftercare planning, the team at Resurgence goes above and beyond. The center provides detox, inpatient services, and outpatient treatment options, giving patients continued support as they transition back into their daily lives. This flexibility is key to long-term recovery, especially for patients from surrounding communities like Rancho Del Sol and the March Air Force Reserve Base.

Christopher?s message concludes with a powerful call to action: ?Please, don?t die! Call them and let them

help you fight for your life because you deserve happiness.?

For anyone searching for a trusted, effective alcohol rehab center in Riverside or a nearby drug rehab offering real hope, Resurgence California continues to be a beacon of light. With a compassionate staff, individualized programs, and a commitment to helping people reclaim their futures, it stands out as one of California's most respected recovery centers.
