

Express Packaging Revolutionizes Custom Packaging with the SECO Flexo-Folder Gluer

April 15, 2025

April 15, 2025 -
Express Packaging, a leader in custom packaging solutions, is proud to announce the installation of the SECO Flexo-Folder Gluer 1634, a groundbreaking machine that will significantly enhance the company?s ability to produce high-quality, customized corrugated boxes with exceptional precision and speed.

With a maximum speed of 8,000 sheets per hour, the SECO Flexo-Folder Gluer expands Express Packaging?s capabilities, enabling the production of larger boxes and a broader range of sizes and styles. The machine?s ability to print and slot corrugated material at high speeds ensures that customers receive not only durable packaging but also vibrant, eye-catching designs that elevate their brand identity.

Revolutionizing Custom Packaging for Every Need

Whether one needs oversized boxes for bulk shipping or specialized custom packaging for retail products, the SECO Flexo-Folder Gluer makes it possible. Express Packaging?s new machinery ensures faster

turnaround times and the capacity to meet diverse needs, including custom sizes and unique design features that set clients? products apart in the marketplace. This addition allows for a more versatile approach, accommodating not only large orders but also smaller, niche requests, giving clients the flexibility they need.

?We?re excited to bring this advanced technology to our clients, as it allows us to expand the range of packaging solutions we can offer,? said Vice President Mike Reardon Sr. ?The SECO Flexo-Folder Gluer gives us the ability to handle even the largest custom shipping boxes with precision, while also delivering vibrant color printing to enhance the look and feel of our packaging.?

Commitment to Quality and Customer Satisfaction

This investment in cutting-edge machinery reflects Express Packaging?s ongoing commitment to providing high-quality, innovative solutions for its customers. The new technology enhances the company?s ability to serve clients across Florida, Georgia, and South Carolina, with a focus on meeting the growing demand for custom, sustainable packaging solutions.

?By staying at the forefront of packaging technology, we can offer our customers the best in both functionality and design,? said Reardon. ?With the SECO Flexo-Folder Gluer, we?re ready to tackle any project, no matter how big or small.?

What?s Next for Express Packaging

As the demand for custom packaging continues to rise, Express Packaging plans to keep expanding its capabilities. The company?s in-house design team will work closely with clients to create custom corrugated shipping boxes tailored to specific needs, ensuring that every box is designed to provide the right balance of protection, aesthetics, and functionality. This added technology enables us to create packaging solutions that are both durable and attractive, helping our customers stand out in a competitive marketplace.
