

Rooter Hero Releases New Information On Plumbing Maintenance For South Bay Residents

February 08, 2016

February 08, 2016 - PRESSADVANTAGE -

Rooter Hero Plumbing of the South Bay, based in Carson, CA, recently released a checklist of tips to help residential customers maintain their plumbing. With the release of this list, Rooter Hero Plumbing associates hope that more people will apply this information to their individual situations to avoid plumbing disasters.

Although Rooter Hero Plumbing offers plumbing repair and maintenance in the South Bay, they, ultimately, want to empower residents to become educated about their plumbing systems so they can identify potential problems early.

Jessica Perrault, spokesperson for Rooter Hero Plumbing of South Bay, says: "Obviously, we are a business and if residents don't have any more plumbing issues, we would be out of business. However, that doesn't mean we wish burst pipes on anyone. We recommend that everybody regularly phone us for maintenance, but there are also plenty of things that homeowners can check for themselves. Putting these two things together would mean that there is far less of a chance of experiencing a serious plumbing problem."

Some of the tips on the checklist released by Rooter Hero Plumbing include checking the pilot light on gas

water heaters, being vigilant and on the lookout for water leaks, and testing toilets for hidden leaks. The sooner homeowners identify issues, the faster repairs can be made.

For residents that do not have the time or the desire to run through a plumbing checklist on a regular basis, Rooter Hero Plumbing offers affordable maintenance programs. These low-cost services have enabled countless South Bay residents to enter into regular maintenance contracts with the company, thereby avoiding serious issues that are likely to be much more expensive to deal with if they are undetected or ignored.

Residents in the area have expressed their satisfaction with the plumbing repair and maintenance services in the South Bay offered by the company. "I went down to my basement and saw that water was leaking," says Sandra F., of Artesia. "I could hear the sound of water but could not see where it was coming from. I called Rooter Hero Plumbing and Michael arrived at my home within 30 minutes. He was friendly, courteous, and found the problem right away. He took care of it and took the time to thoroughly explain to me what had happened and how he resolved the problem. I would call them again if the need arises."

For plumbing maintenance hints and tips, South Bay residents are encouraged to visit the company's website at <https://rooterhero.com/south-bay>. If a plumber is needed, Rooter Hero Plumbing offers 24/7 repair and replacement service for both residential and commercial properties.
