# Mountaintop Web Design Earns Clutch Award Nomination for Website Overhaul of Colorado Legal Services

*April 18, 2025*

GREENWOOD VILLAGE, CO - April 18, 2025 -
Mountaintop Web Design is thrilled to announce its nomination for the Best of Clutch Awards in the Web Development and Design category, a recognition that celebrates U.S.-based agencies delivering creative, strategic, and impactful digital solutions. This honor places Mountaintop among the top-tier providers nationwide and reflects the company?s consistent commitment to building websites and digital marketing strategies that don?t just look great, but truly drive results for small businesses and nonprofits.

The nomination stems in part from Mountaintop?s recent collaboration with Colorado Legal Services (CLS), a statewide nonprofit organization providing legal aid to those who need it most. Through this partnership, Mountaintop took on a full-scale redesign of the CLS website?transforming an outdated and difficult-to-use site into an inclusive, bilingual platform that improved access to vital legal resources for thousands of Coloradans. The project highlighted Mountaintop?s ability to blend human-centered design with technical precision, and the results have been significant: stronger user engagement, improved keyword rankings, and a user experience that now reflects the compassion and accessibility at the heart of CLS?s mission.

?Our mission has always been to create websites that are not only beautiful but effective?tools that empower our clients to grow their businesses or better serve their communities,? said Josiah Bussing, Founder and CEO of Mountaintop Web Design. ?Being nominated for this Clutch award is a direct reflection of the trust our clients place in us and the passion our team brings to every project.?

As part of the nomination process, Mountaintop Web Design is calling on its clients, peers, and community to help solidify its place as a Clutch-recognized leader in web development and design. Clutch?s Best Of awards are unique in that they reflect not just industry recognition, but client support and public feedback?emphasizing the value of relationships and real-world outcomes. Supporters can cast their votes through Clutch until April 18, 2025, by visiting the official voting page. Each vote represents more than a gesture of support; it?s a contribution to spotlighting businesses that prioritize integrity, innovation, and customer-focused design.

The nomination also comes at a time when digital presence has never been more critical. Web design influences nearly all first impressions, and today?s customers often decide within seconds whether to engage further with a business or nonprofit. From intuitive navigation and responsive layouts to accessible interfaces and storytelling through design, a strong website has the power to build trust, spark connection, and drive action. At Mountaintop, these principles are at the core of every solution they deliver.

Mountaintop Web Design was founded on the belief that small businesses deserve big-agency results. Headquartered in Greenwood Village, Colorado, the company works with clients across a wide range of industries, offering services such as website design, WordPress care, SEO, local search, and PPC. Their process begins with understanding the unique challenges of each client and crafting tailored solutions that speak directly to their goals. Whether it's helping a local business attract more leads or equipping a nonprofit with a platform to tell its story, Mountaintop?s work is rooted in strategy, clarity, and long-term success.

The company is honored to be part of an industry that continues to evolve and innovate. The team at Mountaintop Web Design remains dedicated to pushing digital experiences forward?not only for recognition, but to support the real people behind the brands and organizations they serve.
