Dr. Roy Geronemus Presents Leading-Edge Research at the 44th Annual ASLMS Conference

April 24, 2025

April 24, 2025 -
NEW YORK, NY ? April 24th, 2025 ? Dr. Geronemus is presenting nine groundbreaking lectures at the 44th Annual Conference of the American Society for Laser Medicine & Surgery (ASLMS) from April 24-26, 2025.

As one of the world's foremost authorities on laser and energy-based treatments with over 45 years of pioneering experience, Dr. Geronemus has been selected to share his latest scientific research and innovative techniques with dermatologists and laser specialists from around the country.

His presentations will explore groundbreaking innovations across various areas of aesthetic dermatology. He delves into optimizing treatments for vascular anomalies with the high-accuracy VBeam® Pro, and introduces revolutionary acne scar therapies using novel Focal Point Technology with the Avava Miria?. His work also highlights advanced facial rejuvenation techniques through the innovative Avava Miria Platform, along with non-ablative solutions for neck wrinkles and skin laxity using high-energy conical lasers. He presents cutting-edge skin revitalization strategies with BBL® HEROic?? treatments, and discusses new technologies in body shaping and contouring that leverage Avava Miria for effective skin tightening and lifting. His sessions also include advanced vascular case-based discussions, the application of focal point technology for facial wrinkles, and laser treatments tailored for pediatric vascular lesions.

Dr. Geronemus has also been selected as a distinguished panelist for case-based discussions, where elite specialists share insights on challenging clinical scenarios.

These lectures not only highlight Dr. Geronemus?s role as a thought leader in the field but also reflect his commitment to bridging the gap between technological innovation and practical patient care. By showcasing real-world applications of breakthrough devices like the Avava Miria and VBeam Pro, he emphasizes the importance of evidence-based strategies that enhance safety, efficacy, and patient satisfaction in cosmetic and medical dermatology.

His presentations further demonstrate the value of continued education and interdisciplinary collaboration in advancing dermatologic science. By engaging with both clinical peers and emerging technologies, Dr. Geronemus fosters a culture of innovation that drives the field forward. He not only introduces new tools and methodologies but also provides a critical framework for evaluating their real-world impact. Through detailed case studies, data-driven insights, and thoughtful analysis, he equips fellow dermatologists with the knowledge and confidence to integrate these advancements into their own practices.

"The ASLMS Annual Conference represents the pinnacle of innovation in laser medicine and science," notes Dr. Geronemus. "Participating as both educator and student ensures that our patients receive the most advanced care possible, informed by the latest research and technological developments in the field."

The Annual Conference of the American Society for Laser Medicine & Surgery is the largest conference in the United States focused on laser and energy-based technologies for medicine, providing a multidisciplinary forum for scientists, clinicians, and industry representatives.

All of the cutting-edge treatments presented by Dr. Geronemus at the conference are currently available to patients. Dr. Geronemus will return to his practice next week, bringing with him additional insights from this prestigious gathering of the world's leading laser medicine experts.

About Dr. Roy Geronemus:
