

Living Waters Wellness Expands in Port St. Lucie to Elevate Community Health Care

April 30, 2025

April 30, 2025 -

Living Waters Wellness in Port St. Lucie is expanding its facilities and services to better meet the growing demand for comprehensive chiropractic care. For years, the clinic has been dedicated to providing effective solutions for pain relief and overall wellness. Living Waters Wellness combines a calming environment with a skilled team of board-certified doctors. The clinic offers treatments such as spinal decompression, therapy for whiplash, personal injury care, and assistance related to pregnancy. This expansion will enhance their ability to serve newcomers who are looking for a reliable chiropractor near me.

Dr. Brett Schoch, a leading chiropractor at Living Waters Wellness, mentioned, "Our goal is to meet the health needs of the Port St. Lucie community with the highest standards of chiropractic care. The expansion allows us to improve and broaden our services, thereby reaching more individuals in need of pain relief and wellness."

The clinic's expansion will not only accommodate more patients but will also introduce more advanced

equipment and additional services at the Port St. Lucie site. Patients will benefit from care plans that are more personalized, focusing on a comprehensive approach to wellness. The clinic offers a range of notable services, including laser therapy, treatment for auto accidents, and many other chiropractic services designed to address conditions such as back pain and migraines. This wide range of options aligns with their mission to support overall health and help manage pain without resorting to surgery or prescription medication.

Their website also sheds light on laser therapy, a non-invasive technique aimed at reducing pain and inflammation, serving as a potential alternative to pharmaceutical drugs.

Regular patients and new visitors now have more flexibility when scheduling appointments to ensure they receive the attention and treatment they need. Living Waters Wellness aims to make its services more accessible to residents of Port St. Lucie and surrounding areas like Fort Pierce, Vero Beach, and Jensen Beach. With extended operating hours, they are well-positioned to be the leading Port St Lucie chiropractor for many in the community.

Dr. Brett Schoch went on to say, "With our enhanced facilities, we anticipate delivering even greater care and making a positive impact on everyone's health journey. We hold ourselves accountable to the effective and compassionate care our clients expect from us."

Learn more about their specialized chiropractic care for pregnant women, aimed at ensuring optimal health for both mother and baby, by visiting the clinic's site.

The clinic takes pride in its 5-star rating, which is based on numerous positive reviews. The friendly, dedicated, and professional staff have created an atmosphere where patients feel listened to and understood. This supportive environment is backed up by client testimonials that highlight the effectiveness of treatments and the attentive service provided by the clinic's staff.

Additionally, the facility is proud to be recognized as LGBTQ+ friendly and women-owned, showing its commitment to inclusive, diverse service to the whole community. Living Waters Wellness has become a trusted name locally, and with this latest expansion, they are poised to continue as the go-to Living Waters Wellness Port St Lucie chiropractor.

For anyone searching for chiropractic services in the area, visiting the website will offer more information about the treatments available and allow for appointment scheduling. The website provides details on each type of treatment, supplements that are offered, and other valuable information to help guide choices regarding chiropractic care.

Living Waters Wellness invites those experiencing discomfort, injury, or stress to check out their newly updated Port St. Lucie location. With a commitment to improving quality of life through effective, individualized chiropractic care, the clinic is ready to meet the diverse wellness needs of the community. For more information about these treatments, including spinal decompression that aims to relieve back and leg pain by gently stretching the spine, visit their website.
