

Go Industries Launches Best Dually Pickup Mud Flaps for Ultimate Protection

May 22, 2025

Richardson, TX - May 22, 2025 -
Go Industries Inc., a well-known leader in truck accessories and custom manufacturing, has announced a new addition to its product lineup: the best dually pickup mud flaps. These are designed specifically for GMC, Chevrolet, and Ford dually trucks, offering superior protection and durability for tires and body exteriors.

Having quality mud flaps is key. They keep the vehicle looking good and protect its structure by stopping debris from damaging it. Go Industries' new mud flaps are built specifically for dually trucks, which often handle tougher conditions because of their size and towing power. They are made from tough, non-recycled rubber to ensure they last a long time and work well.

The CEO of Go Industries shared their excitement about the launch: "We take pride in delivering reliable, high-performance products to our clientele. Our best dually pickup mud flaps are no exception. Designed with precision and manufactured with premium materials, these mud flaps meet the needs of truck owners who require both functionality and resilience in every accessory they install."

Besides the new mud flaps, Go Industries offers a wide range of truck accessories, aiming to enhance vehicle reliability and the user experience. Their products don't stop at mud flaps; they also provide grille guards, bumpers, headache racks, and more. This extensive lineup shows the company's ongoing commitment to addressing the diverse needs of truck owners, fleet operators, and law enforcement across the country. For more information about their law enforcement solutions and custom manufacturing services tailored to specific vehicle requirements, explore what Go Industries has to offer on their official website.

The best dually pickup mud flaps serve not just to enhance vehicle durability but also play a role in safety. By diverting debris away from rear tires, they help reduce the risk of damage to other vehicles on the road, making driving safer for everyone. Truck owners can choose from various styles like Classic Dually Sets, Stainless Steel Dually Sets, and Diamond Tread Dually Sets, which cater to both aesthetic and functional preferences.

A Go Industries representative noted: "Feedback from our customers has always been pivotal in driving our innovation. Our new mud flaps are a direct result of listening to truck owners' needs for durable and efficient products that withstand the challenges of heavy-duty use. We're excited to see how these mud flaps will enhance our customers' driving experiences."

These mud flaps are more than just tough; they can be customized to fit any dually truck. Go Industries ensures they work with different models by letting customers choose options based on their truck's make, year, and specific needs. Customers can check them out on Go Industries' website, where they can find product listings, detailed descriptions, and a range of pricing options from budget-friendly to premium choices.

The company's dedication to customer support and satisfaction is clear through the resources it continuously offers, including comprehensive product instructions, warranty details, and technical support. Their Platinum Status with the Specialty Equipment Market Association (SEMA) also underscores their commitment to meeting high industry standards.

As Go Industries adds more products and solidifies its place as a leader in truck accessories and custom manufacturing, the introduction of the best dually pickup mud flaps marks another big step in the company's tradition of innovation. To learn more about these mud flaps and other products, visit the official Go Industries website.

Since 1978, Go Industries has been steadfast in its mission to offer reliable, quality products that make life

easier and safer for truck owners and law enforcement officers on the road. As the company keeps pushing for innovation, customers can look forward to new products and services that meet their changing needs. More about their custom solutions and extensive catalog can also be found on their website, where potential clients can even request a custom manufacturing quote.
