

Go Industries Unveils Robust Winch Grille Guard for 4500 Models with Superior Protection and Easy Installation

May 21, 2025

Richardson, TX - May 21, 2025 -
Go Industries Inc., known for truck accessories, law enforcement equipment, and custom manufacturing solutions, has just added a new product to its Medium Duty Grille Guards line. The latest offering, the winch grille guard for 4500 models, is tailored for vehicles like the Chevrolet C4500, Chevrolet C6500, International CV515, Ford F650, and Ford F750. It's a step reflecting the company's commitment to quality and functionality.

Go Industries has been in the game since 1978, meeting the needs of fleet, truck, and law enforcement sectors. The release of the winch grille guard for 4500 models shows how they continue to improve vehicle protection and utility. What sets this product apart is its easy installation. There's no need for cutting or drilling, and its design allows the body to tilt forward, which makes hood access simple for regular maintenance.

The guard is built tough with fully welded construction. It has headlight brush guards made from 1.9" 14-gauge tubing along with 2.5" center cross tubes. The center screen is crafted from laser-cut 18-gauge material. This build promises durability for heavy-duty use. Plus, there's a winch tray that fits up to a 16.5k winch, allowing various brands, which provides users with choices and further enhances the guard's practicality.

Sticking to their values, Go Industries manufactures its grille guards and bumper replacements in the U.S.A. The new product also comes with a powder-coated black texture finish, which not only looks good but adds to its longevity.

Reflecting on the company's mission, a representative of Go Industries said, "Our goal has always been to provide products that perfectly balance function and durability. The new winch grille guard for 4500 models reiterates our commitment to offering reliable and high-quality vehicle accessories that meet the rigorous demands of our customers."

Beyond truck gear, Go Industries supports law enforcement with gear that boosts vehicle function and safety. They offer skid plates and accessories specifically designed for Chevrolet, Dodge, and Ford law enforcement models. The products are made to handle tough conditions, in line with the company's overarching focus on reliability.

Additionally, Go Industries provides custom manufacturing services, allowing clients to order items that meet their specifications. This shows their flexible approach and intention to deliver personalized solutions for different needs. Customers interested in custom manufacturing can visit their website to request a quote and explore their tailored service options.

Launching the new grille guard highlights the progress and inventive efforts at Go Industries. The company aims to not just meet immediate customer needs, but to be ready for future ones, as well. Their resources, such as detailed product guides, catalogs, and technical support, aim to improve the overall customer experience.

The representative acknowledged customer input: "We believe our customers know their vehicles best. Their insights drive our product innovations and enhancements, allowing us to create solutions that truly meet their needs. Our latest grille guard is a direct result of this collaborative process."

Potential buyers are encouraged to check out the detailed features of the winch grille guard for 4500 on the Go Industries website. The site is designed for easy navigation through their broad selection of truck accessories and law enforcement products.

Go Industries welcomes inquiries and custom orders on their online platform, where customers can request quotes and access various support services. Those searching for dependable, American-made truck accessories and manufacturing solutions will find Go Industries' offerings robust, enhancing the function and strength of their vehicles.
