

Best Insurance Broker Introduces Home And Contents Policy

February 08, 2016

February 08, 2016 - PRESSADVANTAGE -

KSL Thomas & Company Insurance, a business in Romford, Essex, United Kingdom, has announced that, as part of their property insurance services, they have now launched a new policy for the home and its contents. The company is widely regarded as the best insurance broker Romford has to offer, and they are committed to continuously improving their offerings and services. The availability of insurance protection for home and contents is just the latest in their list of services.

A spokesperson for KSL Thomas & Company Insurance says: "We specialize in comparing and arranging comprehensive Insurance at competitive prices, covering all your personal and business insurance needs. We aim to keep you fully protected should the worst happen and by doing a comparison and giving you options, our quotes will keep your costs down and your coverage strong. Our new home and contents insurance policy is already proving to be very popular."

Home and contents insurance protection covers the building as well as the belongings contained within it. There are various levels of coverage and, as such, it is not a generic type of policy. This is why it is seen as very important for people to spend a significant amount of time comparing their options. Through companies

like KSL Thomas & Company Insurance, they can do just that, and this is something many people have been very pleased about.

"I recently bought my own home so felt I needed home and contents insurance," says one happy customer. "Trying to navigate through the world of insurance, however, was really overwhelming. There's just so much out there and I literally couldn't make heads or tails out of it. Luckily, I came across KSL and they were able to find me a policy that was exactly suited to my needs. Best of all, it was far more affordable than anything generic I had come across so far. I can't recommend these guys enough and will go to them for any future insurance needs as well."

Home and contents insurance is an optional type of insurance. However, it is recommended that people get it, particularly with increasing reports of various natural disasters affecting homes in the United Kingdom.
