

KSL Thomas Celebrates 50th Anniversary Of Professional Indemnity Insurance Offering

February 08, 2016

February 08, 2016 - PRESSADVANTAGE -

Romford, Essex, United Kingdom insurance broker KSL Thomas & Company Insurance has announced that they have been providing professional indemnity insurance for 50 years. Over this time, they have set themselves apart as offering the best insurance Romford has to offer. Over the past five decades, they have also expanded their availability of products tremendously, enabling them to ensure their clients can have a full range of insurance suitable to their specific needs.

"From our humble beginnings offering just professional indemnity insurance, we have grown into a huge insurance broker," says a spokesperson for KSL Thomas & Company Insurance. "While professional indemnity insurance remains one of our bestselling policy types, we now also offer a wealth of other types of insurance. Our goal is to make sure our clients find the policy that best suits their needs, including their budget."

Those looking for a professional indemnity insurance quote are encouraged to contact the company. They offer strong online comparison tools on their website. In addition, unlike many other insurance brokers, they also enable clients to speak to them over the telephone in order to find the best possible type of policy.

Those who have worked with the broker over the past decades have been full of praise. "I first came across KSL Thomas & Company some ten years ago, when I was looking for professional indemnity insurance," says one happy client. "Since then, I have returned to them very regularly either to review my existing policies or to find new policies for my changing needs. I love how thorough they are and how easy they make it for people to find the policy they need. I can't recommend these guys enough."

The company is looking forward to many more decades of building excellent relationships with policy holders and insurance companies alike. They always strive to improve themselves, searching for new policies and insurance types that they can add to their list of offerings. The variety of business insurance types that they now offer is truly extensive, including policies designed for specific types of businesses such as retail, roofers, surgeries, teachers, scaffolders, tradesmen and many more.
