

West Coast Tire & Services Expands Auto Repair to South OC, Targets San Clemente for Auto Care

June 02, 2025

San Juan Capistrano, CA - June 02, 2025 -
West Coast Tire & Services, a respected auto repair shop in San Juan Capistrano, is expanding its services to reach customers in San Clemente. Since 2006, this company has been a certified Goodyear Auto Service Center Tire Dealer, offering premium car care solutions. Their services range from auto repair to comprehensive diesel vehicle repair services. With this expansion, they plan to provide their well-known services to a larger audience in South Orange County.

This repair shop is famous for its wide range of services, such as tire repair, engine rebuilding, suspension work, radiator repair, and much more. They use modern diagnostic equipment and have ASE-certified technicians to ensure vehicles get the best care while keeping prices reasonable.

Todd, a West Coast Tire & Services spokesperson, highlighted the importance of entering the San Clemente auto repair market: "We are excited to bring our honest and professional automotive services to the residents of San Clemente. We understand how challenging it is to find reliable and credible vehicle repair

options at competitive prices, and our goal is to fill that gap."

In addition to its extensive services, the company excels at handling factory maintenance schedules cost-effectively for its clients. As a Goodyear Auto Care Service Center, it enjoys the benefits of being part of a national network while still providing the personal touch associated with a local business. West Coast Tire & Services is dedicated to offering economical and high-quality vehicle maintenance, especially compared to dealer-level pricing.

The company also highlights its commitment by offering financing options and working with extended warranties to meet different customer needs. This flexibility lets them provide solutions to fit any budget, a feature expected to be well-liked in San Clemente.

For small truck vehicles, West Coast Tire & Services offers standard repairs and extras like lift kits and wheel enhancements for those looking to upgrade. Their focus on quality and comprehensive service means they're a one-stop shop for car owners needing both routine maintenance and specialized repairs. Potential clients are encouraged to visit the West Coast Tire & Services website to explore how they handle diesel vehicle enhancements.

The facility emphasizes safety and reliability. Whether it's keeping tires in excellent condition or handling cooling system issues to prevent engine overheating, West Coast Tire & Services ensures vehicles perform well and last longer.

Expanding to San Clemente is part of the company's ongoing mission to deliver high-quality auto services without the typical dealership costs. Their services include brake repair, fuel injector cleaning, and auto air conditioning fixes, affirming their position as a full-service repair provider.

Todd also shared more about the company's dedication: "Every vehicle that comes through our doors is serviced with a commitment to excellence and transparency. Our ASE certified technicians make sure that no detail is overlooked and that our customers can drive away with complete confidence."

Entering the San Clemente region is a significant moment for West Coast Tire & Services and its clients. By offering a wide range of services backed by skilled technicians and advanced equipment, they aim to be the preferred destination for auto repair and maintenance in San Juan Capistrano, San Clemente, and all of South OC.

West Coast Tire & Services already has a strong reputation in South Orange County. They are set to

extend their high-quality service to new communities while upholding the values and dedication that have led to their success. Car owners in San Clemente can now look forward to a wider variety of services that ensure their vehicles are in capable and trustworthy hands.
