

Surge in Moving Overseas: United International Removals Sees 41% Jump in International Relocations

May 08, 2025

Wigan, UK - May 08, 2025 -
United International Removals Ltd has observed a big increase in people deciding to move overseas. In the first half of 2025, the company saw a 41% jump in inquiries about their overseas moving services compared to the same time in 2024. This rise shows a growing trend among UK residents looking for a fresh start abroad. Popular destinations include Australia, Dubai, Spain, Canada, and the USA.

There are several reasons why more people are interested in moving to other countries. High living costs, new remote work options, and the quest for a better quality of life are key factors influencing these decisions. Additionally, attractive retirement plans, better family and educational opportunities, and the chance for dual citizenship or ancestry visas make the idea of moving abroad appealing. Political and social issues at home, along with the lure of warmer climates and cleaner environments, also motivate individuals to consider relocating.

United International Removals, a UK-based company, specializes in overseas household removals and

shipping. They offer a wide range of services to various clients including migrants, UK expats, students, and retirees. Their services are designed to make the moving process smooth, covering everything from packing to getting through customs.

Ross Dunlevy, Director at United International Removals, shares his thoughts on the trend. "More and more people are telling us they just want a better quality of life," Dunlevy says. "Whether it's escaping high living costs, working remotely by the beach, or giving their kids a different kind of upbringing, moving abroad feels like the right move for a lot of families right now."

The company provides international removals to locations like Australia, Canada, Hong Kong, India, New Zealand, Singapore, South Africa, Dubai & UAE, and the USA. By collaborating with leading international shipping lines, they ensure clients receive the best rates and service. Their commitment to maintaining high international standards means clients can expect a superior moving experience.

United International Removals also offers services within Europe. European destinations include popular places like the Canary Islands, Cyprus, and Malta. Just like their international services, these moves include detailed packing and customs clearance, ensuring a smooth process for clients.

For smaller moves that involve just boxes and luggage, United International Removals provides door-to-door international shipping services. By managing every aspect of the move, the company makes sure the process is stress-free for their clients.

Ross Dunlevy believes that the trend of moving overseas will likely keep growing as more people learn about the advantages of living abroad. "The world is becoming increasingly interconnected," he says. "People are now more aware of the possibilities and lifestyles available elsewhere, and they are taking advantage of opportunities to improve their quality of life."

The company's skill at handling complex international moves sets it apart in the industry, and it shows their dedication to delivering excellent service to clients. United International Removals remains committed to helping those seeking new opportunities abroad, making them a popular choice in the present climate.

As the interest in relocation continues to grow, driven by different reasons and opportunities, United International Removals stands ready to support individuals and families in their journey to new adventures. More details about their services, including quotes and other information, are available on their website.

The noticeable rise in inquiries highlights a significant shift in how people view their needs and dreams when

it comes to moving abroad. With their extensive experience and customer-focused service, United International Removals continues to be a trusted partner for many seeking a fresh start in a new country.
