January 30, 2016 - PRESSADVANTAGE -

PPCYES is a professional SEO and website services firm that has completed their first year as a successful business. The company is celebrating the anniversary and their achievements throughout the first 12 months of their business.

The online company specializes in website traffic generating services and SEO Optimization. The company has been providing a variety of packages to their clients for organic website traffic generation, SEO Optimization and more. January 1st, 2016 marked the company's first anniversary of the company; they are now celebrating their one year anniversary and commemorating their achievements within the span on just one year. According to a source, the company has doubled the amount of clients since it was bought from previous owners on 1st of January, 2015.

PPCYES claims to give organic human traffic to their clients who opt for their traffic generation packages. The list of available packages can be seen on their website at <http://www.ppcyes.net/>. The spokesperson for PPCYES made an official press announcement in which he discussed the company's work in the past 12 months and their plans for the future.

"Here at PPCYES, we started when the ownership was first transferred from the previous owners of the company in January, 2015," he said. "Since then, the company has grown tremendously in just 12 months. The secret behind our success is our solid work and our premium traffic generating packages that bring buyers back every time. With more than 80% of our clients being repeat buyers, we now have twice as more clients than last year when we started out."

He further added, "Our packages promise organic traffic and 100% real users. The packages include keyword targeted traffic, premium targeted traffic, Alexa traffic and more. After celebrating our 1st year anniversary, we aim to grow more and more throughout this year and have more achievements under our name by our 2nd anniversary."
