

Complete Home Gym Package UK With Weight Bench Unveiled by Strongway Gym Supplies for Fitness Fans

May 19, 2025

Coventry, UK - May 19, 2025 - PRESSADVANTAGE -

Strongway Gym Supplies has released a new all-in-one strength training package designed for home gym users who want a complete, versatile setup without the need to purchase equipment separately. This comprehensive bundle includes Olympic weight plates, an Olympic barbell, an adjustable squat and barbell rack, adjustable dumbbells, a basic yet robust weight bench, and protective gym mats. It offers a ready-to-use foundation for individuals looking to build a functional home training area without the hassle of sourcing items individually or dealing with compatibility issues.

Designed for convenience and adaptability, the Ultimate Set brings together the core components required for effective resistance training across a range of exercises. Whether focusing on compound lifts like squats and bench presses or targeting isolated muscle groups with dumbbells, users can tailor their routines without the limitations of space or commercial gym schedules. The included gym mats help protect the flooring while creating a stable base for every workout. This makes the set ideal not just for advanced users but also for beginners seeking a durable and well-rounded start to their fitness journey.

The set appeals to those who want a streamlined solution with carefully selected items that integrate well together. It's particularly useful for individuals with limited time or space who still want access to a full-body training experience. Every item in the bundle is made with durable materials designed to endure regular and long-term use, even in demanding environments like garages or converted spare rooms. Customers can feel confident knowing they're investing in equipment built to last and evolve with their fitness goals. The full details of the package can be viewed here: <https://strongway.co.uk/products/ultimate-set-olympic-weight-plates-olympic-barbell-adjustable-squat-and-barbell-rack-adjustable-dumbbells-weight-bench-gym-mats>.

For those looking to expand their workout variety further, Strongway offers a foldable adjustable weight bench with a preacher curl pad and leg extension. This product is ideal for users wanting to include more isolated

arm and leg movements in their training. The leg extension targets the quadriceps and hamstrings, while the preacher pad supports focused biceps exercises, helping to build strength efficiently and safely.

Its foldable design is perfect for users training in compact areas, such as garages, bedrooms, or shared spaces. Built for both comfort and durability, the bench's padding supports longer sessions while helping to maintain good form. Adjustable positioning makes it suitable for various pressing angles, boosting its versatility. Paired with Strongway's dumbbells and barbells, this bench is a valuable upgrade for any home gym. To complete a well-rounded setup, Strongway also offers a free-standing cable crossover machine, an essential addition for users seeking even more variety and functionality in their workouts. While the Ultimate Set and adjustable bench cover major strength movements, adding a cable system enables continuous, controlled exercises that target muscles from different angles, enhance joint mobility, and support functional training.

Strongway's cable crossover machine features dual adjustable pulleys and integrated weight stacks in a compact frame. It allows for exercises such as chest flyes, standing rows, lateral raises, and dynamic core work—all from one station. Its smooth motion, sturdy build, and range of applications make it a smart addition for individuals or families wanting to future-proof their fitness space and accommodate different training styles.
