

West Coast Tire & Services to Expand Auto Repair Excellence to Dana Point and Beyond

June 02, 2025

San Juan Capistrano, CA - June 02, 2025 -
West Coast Tire & Services has announced that they are expanding their service area to include San Clemente residents. This move is part of their mission to provide quality auto care to more people in South Orange County. Since opening in 2006, West Coast Tire & Services has earned a reputation as a reliable provider of a full range of auto repair and maintenance services. It's also a certified Goodyear Auto Service Center Tire Dealer.

Leadership at West Coast Tire & Services views this new area expansion as a chance to meet the rising need for trustworthy automotive services in the region. Todd, a company representative, shared his excitement by saying, "We're thrilled to extend our auto repair services in San Clemente. Our goal has always been to provide dependable and affordable auto solutions, and we're excited to bring that mission to San Clemente residents."

They offer many services for both foreign and domestic car makes, including extensive auto repairs, diesel

repair, and maintenance services. Their ASE-certified technicians use the latest automotive technology to deliver high-quality service. Among their services, customers will find tire repair, engine rebuilding, and suspension and radiator repair. These services are designed to keep vehicles running safely and efficiently. For more information about their comprehensive services, visit their company website.

Based in San Juan Capistrano, West Coast Tire & Services prides itself on honesty and professionalism. It provides a cost-effective alternative to dealership repairs & maintenance. Their factory-recommended maintenance is competitively priced and benefits from being affiliated with a national brand like Goodyear.

Beyond the core services, they offer specialized diesel maintenance, which covers lift kits, tires, and wheels specifically for diesel vehicles. They understand the specific needs of diesel technology and tailor their services to meet those needs. Engine rebuilding is another service that focuses on performance improvements and longer engine life while also being fuel-efficient.

Suspension repair is also an important service, ensuring smooth rides by addressing any needed repairs, replacements, or adjustments. Radiator repair is crucial, too, as it prevents engines from overheating and damage by making sure the radiator and related systems work properly.

This expansion means more reliable vehicle maintenance and repair options for people living in San Clemente and the greater South Orange County area. West Coast Tire & Services will continue to offer quality workmanship and competitive prices.

Todd further remarked, "Expanding our reach to San Clemente is more than a business decision. It's an extension of our commitment to high-quality service at reasonable prices, minimizing the burden of car maintenance and repairs."

This expansion fits into West Coast Tire & Services' larger goal of making quality auto care more accessible across Southern Orange County, California. Now, with services extended to San Clemente, Dana Point, Laguna Beach, Ladera Ranch, and Rancho Mission Viejo, the company stays committed to upholding the quality and standards that have shaped its brand over the years. Adding San Clemente to its service areas is a big step forward in its growth and commitment to excellence in South OC.

For those interested in West Coast Tire & Services, their location in San Juan Capistrano remains a center for auto expertise and customer care, now with the added convenience of serving San Clemente residents as well. More details on their location, services, and booking appointments can be found on their

website.
