

BREAKING: Local Rehab Expands Services to New Port Richey Facility

May 20, 2025

May 20, 2025 -
New Port Richey, FL ? Real Recovery Solutions is known for being the largest, highest-rated sober living network in the state of Florida, but that?s not all they offer. The organization has expanded to provide treatment facilities as well. Recently, Real Recovery Solutions opened a treatment center in New Port Richey. The new facility offers inpatient services, a partial hospitalization program (PHP), intensive outpatient programming (IOP), and outpatient programming. The New Port Richey facility treats a variety of substance use disorders (SUDs).

?At Real Recovery, we prioritize creating a healing space that offers a wide variety of evidence-based treatment options for those living with SUD. If you?re ready for a lifetime of recovery from SUD, we?re ready to give you the tools you need to get there,? the website begins.

The inpatient treatment facility provides clients with round-the-clock care that empowers them to step away from the triggers in daily life. This level of treatment is intended for people who are in the early stages of recovery and people who need intensive support while they determine the next step of their treatment, and is designed with flexibility in mind.

In PHP, clients benefit from the same services as inpatient care. However, they go home at the end of the day. This ensures that clients can receive the in-depth, high-quality treatment they need while maintaining their responsibilities at home.

?With IOP at our New Port Richey location, you have more treatment than traditional therapy without having to commit the majority of your day to treatment. During IOP, you?ll benefit from the values of 12-step programming while utilizing other relevant techniques for treatment.

?At Real Recovery, we know that having family support makes a difference throughout recovery. That?s why we prioritize family therapy options, which will empower you and your family to get a better understanding of your condition. Your family will learn what steps you can take as a unit to succeed in a lifetime of recovery,? the website states.

Their outpatient treatment provides clients with consistent, long-term support from a therapist who specializes in treating people in recovery from substance use disorders. Through this process, clients come to understand the root causes of their condition. Many clients in outpatient therapy choose to live in Real Recovery?s sober living facility.

?Dual diagnosis is the term we use to describe two co-occurring conditions. During treatment, you?ll work with clinical staff to address both conditions simultaneously. You?ll work to identify how these conditions impact your thought patterns and develop healthier coping strategies,? the website continues.

The Real Recovery Solutions New Port Richey facility treats many different substance use disorders, including those that involve alcohol, cocaine, heroin, marijuana, meth, benzodiazepines, polysubstance use, and more.

?At Real Recovery Solutions, we know that the process of recovering from SUD and AUD isn?t simple. That?s why we?re here to provide you with the support and skill development you need to be successful. With services ranging from round-the-clock care during inpatient treatment to OP, where you come to see us once a week, we?re ready to meet you where you are.

?We know that therapy is the beginning of the process for most people in recovery, not the end. Maintaining a life free of substance use is a commitment that takes a lifetime. Real Recovery Solutions is run by people in recovery for people in recovery. We build a community of mutual support so you know you?re never alone in your commitment to growth,? the website concludes.

Real Recovery Solutions now offers intensive outpatient treatment and partial hospitalization programs in addition to the sober living community that serves the New Port Richey area. This means that Real Recovery Solutions can see clients from the first days of inpatient treatment all the way through sober living and beyond. To get started, check out their website or call them at 813-373-6762.
