Critter Bros Expands Wildlife and Pest Control Services in Sacramento, CA: Meeting Community Needs with Innovation and Care

July 07, 2025

July 07, 2025 -

Critter Bros has announced it will expand its wildlife and pest control services across the Sacramento area. As more people encounter issues with pests and wildlife, Critter Bros is stepping up to provide solutions. These services will help residents and businesses deal with problems ranging from wildlife intrusions to common pests, making sure both people and animals are treated with care.

The company's goal is to give the Sacramento community access to a wider variety of services. By offering these, they aim to maintain a balance between human activities and nature, using methods that protect wildlife while ensuring the safety of homes and businesses. Critter Bros Sacramento CA stands committed to providing effective solutions without harming the environment. More details about their services can be found on their website.

The new services cover many different issues. Urban areas are seeing more disruptions from wildlife, and Critter Bros is ready to tackle them with a comprehensive set of removal services for animals such as armadillos, bats, beavers, and raccoons, as detailed on their wildlife removal page. They handle all kinds of

situations, including those involving armadillos, bats, beavers, birds, bobcats, foxes, gophers, ground moles, ground squirrels, groundhogs, marmots, muskrats, opossums, prairie dogs, raccoons, skunks, squirrels, voles, wild hogs, and woodpeckers. Each service focuses on managing wildlife while ensuring both animals and humans remain safe.

For pest control, residents can count on Critter Bros' expertise in dealing with issues like ant infestations, bed bugs, bees, wasps, cockroaches, mice, and rats, as well as other problems such as scorpions and silverfish. Details on their pest control solutions can be perused on their pest control service page. The team uses modern techniques that help manage these pests, reduce their impact, and prevent future troubles.

John Dewitt, CEO of Critter Bros, shared the company's philosophy: "As communities grow, encounters with wildlife and pests become more frequent. Our services address these situations responsibly, fostering safe coexistence. We focus on specialized, environmentally conscious methods to set industry standards."

The team's strategy is not just to remove pests or wildlife but also to educate the public on how to prevent these issues from happening again. This approach helps them achieve their aim of maintaining a safe and healthy living environment for all residents in and around Sacramento.

Critter Bros draws upon its years of experience in the industry for this expansion. They are dedicated to keeping their service standards high and ensuring customer satisfaction, which has been key to their strong reputation. The move to expand their services also takes into account feedback from Critter Bros Sacramento CA reviews, which often praise the staff's effectiveness and professionalism.

Alexis Moreno, the Operations Manager at Critter Bros, explains why the expansion is essential: "Our extended services are in response to community needs. We know from our interactions how difficult these situations can be. Our goal is to handle these issues with as little stress as possible for our clients, ensuring their safety and peace of mind."

Residents interested in these services can use Critter Bros Sacramento CA MapQuest for easy route planning and location finding. As the company keeps growing, it remains focused on its mission to protect both people and wildlife, advocating for solutions that respect both ecological and human needs.

Critter Bros is advancing Sacramento's approach to wildlife and pest control with its expanded services. By using innovative methods and focusing on customers, the company reinforces its role as a leader in solving challenges posed by wildlife and pests. With positive feedback from Critter Bros Sacramento CA reviews, they continue to build a solid reputation and offer effective solutions for current problems and future

prevention.
