

Florida?s Largest Sober-Living Network Expands Crucial Services in Bradenton

May 21, 2025

May 21, 2025 -
Bradenton, FL ? Real Recovery Solutions, the largest and highest-rated sober living network in the state of Florida, has continued to expand its services. Recently, the organization opened a treatment center in Bradenton that offers inpatient services, a partial hospitalization program (PHP), intensive outpatient programming (IOP), and outpatient programming. At this facility, they treat a variety of substance use disorders (SUDs).

?We?ve designed the inpatient treatment program at our Bradenton, FL, facility with intensive care in mind. During inpatient care, we empower you to focus exclusively on healing from SUD by providing you with 24/7 care. Here, you don?t have to worry about the stress and triggers you encounter daily.

You?ll work with our world-class clinical staff, using evidence-based treatment modalities to work through the causes of your SUD and any co-occurring conditions. We?ll tailor your treatment to meet your unique needs,? their website begins.

Their PHP is designed for people who don?t need or want inpatient care but would still benefit from intensive,

daily treatment. Treatment consists of a combination of medication management, individual therapy, and group therapy focused on 12-step programming.

?IOP is the perfect fit for clients who want several hours of treatment multiple days a week but aren?t looking for daily treatment. In IOP, you?ll receive a comprehensive, personalized care plan that takes to heart the fundamentals of 12-step programming while utilizing evidence-based individual therapy options,? the website continues.

Real Recovery Solutions also offers regular outpatient therapy. Regardless of what type of treatment a person starts with, they can continue to receive consistent, long-term therapy from a therapist who specializes in SUD treatment.

Dual diagnosis is another cornerstone of the organization's treatment. Many people living with SUD also have an underlying mental health condition. Dual diagnosis treatment empowers people to get to the root causes of SUD and empowers them to heal more fully.

Real Recovery Solutions treats a variety of conditions, including substance use disorders revolving around alcohol, cocaine, heroin, marijuana, meth, benzodiazepines, and more.

?At Real Recovery, we know recovery is a long-term commitment, and we?re prepared to stick with you every step of the way. Whether you?re looking to detox in inpatient treatment, need the extra support PHP can provide, or are looking to start with more intensive care before transitioning to one of our sober living locations, we will provide you with the tailored care you need to be successful in recovery, now and years down the road.

As anyone who?s graduated from our program will tell you, recovery doesn?t end with therapy. Recovering from SUD and AUD is a lifelong journey that requires dedication and commitment. We know that if you?re willing to put in the effort, recovery is the inevitable result because we?ve seen it happen for our clients time and time again. If you?re serious about healing, we?re serious about doing everything we can to empower you to succeed. As soon as you?re ready to get started, we are too,? the website concludes.

Real Recovery Solutions now offers inpatient treatment, intensive outpatient services, and partial hospitalization programs in addition to the sober living community they?ve built in the Bradenton area. They also provide resources, like gym memberships and job help, to set people up for success as they transition back into regular life. To learn more, visit their website or call them at 813-373-6762.
