International Tax Attorney Launches Facebook Page

February 05, 2016

February 05, 2016 - PRESSADVANTAGE -

Flott & Co, an international taxation law firm in Arlington, VA, is proud to announce that they have now launched their Facebook page. The company has already had an active social media campaign, but they focused almost solely on Google+. By adding a Facebook page, they feel that they are better able to reach their clients both here and in other countries.

"Working in international taxation means that we have to deal with people from all over the world and in every type of time zone," says Stephen P. Flott from Flott & Co. "This is why social media is such an important tool. It gives us a global shop front, if you like to put it that way, enabling our clients to speak to us from wherever and whenever. And while we will continue to work with Google+, the reality is that Facebook is simply a more popular and important network. The fact that we find it easier to use is an added bonus."

The new Facebook page properly introduces the international tax attorney and the work that he does. International taxation is one of the most complicated areas of taxation, both for businesses and for individuals. As such, people are encouraged to contact the firm as soon as possible to make sure their affairs are in order and compliant with the various laws that are applicable to them. "It is important that people contact us straight away, rather than waiting for a tax deadline either in the US or in the country they reside in," adds the admin representative. "All too often, there are so many things wrong with the way they kept

records that we needed ages to get it all right. Once it's right, however, our clients will also understand how they should keep their records and what they have to do to keep their books in order."

People are encouraged to use the contact information listed on the lawyer's website for further information. Full details on what they do and how they charge their clients are included on the website, as well as link to their various social media accounts, including Facebook.
