

Go Industries Unveils Tough New Heavy Duty Grille Guard with Winch Mount for Enhanced Truck Protection and Utility

June 11, 2025

Richardson, TX - June 11, 2025 -
Go Industries has just introduced a new product to their truck accessory lineup: the heavy duty grille guard with winch mount. This latest item is designed to improve both the protection and functionality of trucks. The grille guard boasts a tough framework, perfect for winch carriers and brush guards. Made from 5/16 laser cut steel uprights and 2.5" 16-gauge steel cross tubes, this modular grille guard is crafted to handle tough conditions. It offers maximum strength thanks to its custom, heavy-duty mounting brackets. This new addition underscores Go Industries' commitment to providing top-notch, durable accessories for truck owners.

For over 40 years, Go Industries has been serving truck fans, law enforcement, and those in need of custom manufacturing. Based in Richardson, Texas, the company delivers a wide array of products and services. These include front and back-end truck protection, along with specialized gear for law enforcement vehicles. Truck accessories like grille guards, bumper replacements, air flow tailgates, headache racks, mud flaps, and steps are created to boost the vehicle's utility while protecting it from damage.

"Our goal has always been to offer our customers innovative solutions tailored to their needs," says a representative from Go Industries. "Adding the heavy duty grille guard with winch mount to our lineup reflects our dedication to quality and customer satisfaction."

Besides offering truck guards, Go Industries also caters to law enforcement by providing specialized equipment. They provide accessories for Chevrolet, Dodge, and Ford vehicles, and offer skid plates that protect vehicles in challenging driving conditions. Moreover, the company's custom manufacturing services allow clients to order products tailored to their specific needs.

Apart from truck accessories and law enforcement tools, Go Industries is advancing in custom manufacturing. By delivering tailored solutions, the company allows for flexibility and meets particular customer requirements. It's easy for customers to get quotes for their needs via the company's digital platform.

The company's offerings are backed by various customer resources, such as product instructions, a catalog, warranty information, and instructional videos. Achieving Platinum Status with the Specialty Equipment Market Association (SEMA) highlights Go Industries' commitment to maintaining high service and product standards.

"As a company driven by customer-centric values, we've always prioritized delivering quality that aligns with our clients' evolving needs," said the CEO of Go Industries. "We're proud to expand with the new heavy duty grille guard with winch mount, exemplifying our dedication to offering durable and reliable products."

Every product from Go Industries is made in the USA, showing their commitment to quality and local manufacturing. Keeping production domestic ensures close monitoring of product development and quality control, benefiting customers with dependable products.

The heavy duty grille guard with winch mount is customizable based on the vehicle's year, make, and model. Options for additional brush guards and winch carriers allow customers to tailor their protective solutions to fit their needs better. Notably, the design does not require cutting or drilling during installation and includes features that make it easy to access the truck's hood.

Go Industries offers various payment options for its customers, including cryptocurrency. The company supports its products and provides continuous assistance through sales and technical channels, ensuring help is available when needed.

For more details on purchasing or customizing a heavy duty grille guard with winch mount, potential buyers can visit the Go Industries website. The sturdy design of this new grille guard enhances the extensive line of truck accessories available, addressing practical and protective needs for various truck models, such as the Chevrolet C4500, Chevy 6500, Ford F750, F650, and International CV515 trucks.
