

007SpyGear.com Announces New Range of Counter Surveillance Equipment and Products

February 02, 2016

February 02, 2016 - PRESSADVANTAGE -

Providing an inventory of tech products used for corporate security, law enforcement and security services, 007SpyGear.com has now announced a new line of counter surveillance equipment for privacy and protection.

Due to popular demand, 007 Spy Gear has now launched a new line of counter surveillance equipments and products for privacy and personal protection. According to the company, many people now look for privacy protection and personal protection equipment due to increasing cases of privacy violation and such. The company has launched the new line of products on their official website at <http://007spygear.com/>.

The new line of counter surveillance equipment, which allegedly comprises of only 'first quality technology', includes wireless hidden camera detectors, signal detectors, rearview glasses and GPS tracking detectors etc. A representative of 007 Spy Gear made an official press statement in which he discussed the background of the company and provided insight on the new line of counter surveillance tech.

'Here at 007 Spy Gear, we are fully dedicated to providing first quality technology for security, surveillance and more. Being an online spy gear shop, our main motive is to provide excellent quality products that stand the test of time and a proficient customer service to match. After a growing demand for personal security products and equipment for detecting privacy infringement, we have now released our new line of amazing counter surveillance products and equipment,' stated the representative.

He further gave an in-depth analysis of the new line of equipment: 'In this new line of counter surveillance products, we have mainly featured products that detect signals from hidden cameras or audio recorders to let one know if they are being secretly filmed or recorded. Other products include rearview glasses, with more to be added very soon.'

The new line of counter surveillance products can be seen on 007 Spy Gear's website at <http://007spygear.com/categories/Counter-Spy/>.
