Top Cosmetology School Opens In Payson, Utah

February 05, 2016

February 05, 2016 - PRESSADVANTAGE -

American Beauty Academy, a cosmetology school, is proud to announce the grand opening of their new location in Payson, Utah. They have moved to 87 W 600 S in Payson. The opening of the school for cosmetology with relatively low tuition will take place on February 6, 2016 between 4pm and 6pm. During the event, they will have prizes, tours, giveaways for free salon services, ribbon cutting, and food and cake. All are invited to the event.

Jan Barker from American Beauty Academy says: "We are proud to be an affordable cosmetology school, as well as being one of the best around. We want to improve the profession of cosmetology as a whole, and believe we will be able to do this better from our new location. We encourage everyone to come to our grand opening, whether they have an interest in enrolling in the school or not."

The school has set itself apart from other schools of its kind due to its dedication and commitment to its students. It is a beauty school with small classes, for instance, as they believe this will enable them to better address the individual needs of their students. In so doing, they are also able to deliver better cosmetologists to the industry, which is a tremendous contribution to the local economy and community.

The school offers courses in four specific areas of cosmetology. These are women's hair, barbering,

aesthetics, and nails. Because the school is committed to giving people more employment opportunities and to improve communities as a whole, they also provide significant support to their students. Those who require financial aid are encouraged to contact the school, or to speak to a representative during the grand opening.

The school has operated in Salt Lake City, Utah, for many years, and they have quickly become one of the most popular schools of their kind, with alumni raving about the experiences they have had. "I attended the American Beauty Academy straight out of high school and can't recommend them enough," says Sarah K. "I am now a qualified cosmetologist and run my own business. The school gave me the skills to be the best I can be, and they went above and beyond cosmetology, including things such as business skills and administration as well. Payson is lucky to be the next location for the school. People there are going to love it."
