

Jeunesse Review Ranks On First Page Of Google

February 10, 2016

February 10, 2016 -
Popular super blogging duo Bren & Mike are proud to announce that their review of Jeunesse now ranks on the first page of Google. Bren and Mike specialize in SEO or Search Engine Optimization, and they help businesses get found in search engines so that they can get traffic, leads, and ultimately sales. Managing to rank on the first page for their review is a testament of their abilities.

"Jeunesse Global is a very popular home-based business opportunity," says Mike Marko himself. "Because it is so popular, the competition for Jeunesse-related keywords is really tough. We utilized all our skills and tools, which are the same ones we promote to our followers, and managed to get to the top. This serves not just as proof of our skills and tools, but also the popularity of the program."

The tools that they used include the Empower Network, the Kalatu blogging platform, the IPAS2 system, and Influx Entrepreneur. These are all systems that they have positively reviewed in the past and have recommended to their followers. For Bren & Mike, the goal of the review was only partially about recommending a new home based opportunity. The wider goal was to show the strength of the tools and platforms that they use in their own marketing activities.

"The Jeunesse review for us was a challenge," adds Bren herself. "We love the opportunity itself, but we also

loved the fact that it really showcased what we can do even more. Any online entrepreneur will tell you how hard it is to rank highly on Google with high competition keywords, but we managed to do it, and in record time as well. This is what really drives us and we hope that our readers are inspired by it as well."

Bren & Mike regularly look at new home based opportunities. Jeunesse Global is so popular that it would not have escaped their attention for long. However, this is one of the first times that they joined at the end of an already long queue. Yet, through their hard work and excellent platforms, they managed to take over that queue and get to the top.
