The sale includes a wide selection of high-quality frames and lens options, including premium specialty lenses such as Shamir®, Avulux®, and performance-based designs for sports and scleral lens wearers.

?We take pride in delivering tailored vision solutions that support every aspect of our patients? lives,? said Dr. Todd Cohan, O.D. ?Whether someone needs glasses for computer work, driving, sports like pickleball, or artistic endeavors, our lens options?including industry-leading Shamir® designs?offer crisp, precise vision that fits their unique demands. As part of the sale, Maui Jim® frames have their own unique promotion, with discounts up to \$75 on complete eyewear packages and \$50 on frames alone.

In addition to savings, Forsight Vision Care is emphasizing the importance of lens functionality and health benefits. Their selection of premium lens technologies includes Shamir® lenses, which offer unmatched clarity and precision for everything from computer work to long-distance driving, and Avulux® lenses, which are engineered specifically for migraine and light sensitivity relief. For patients with more advanced visual demands, their team also provides specialty options such as scleral lenses, which offer comfort and hydration for dry eyes, and sport lenses designed for activities like cycling, pickleball, and golf.
