The power of Resurgence?s approach is perhaps best understood through the testimonials of the people whose lives it has transformed. Former patient Christopher S. shared his story with raw honesty: ?If you struggle with addiction, please call this place! Do yourself a favor and give yourself a chance. Me and my girlfriend were both struggling with severe substance abuse issues and we tried getting into treatment for six months but we ran into every road block with other places. My girlfriend randomly called here and they got us in that night and even helped me figure out my insurance. They saved our lives. The staff is unbelievable to say the least. From the maintenance crew all the way up to the program managers are all amazing human beings that all really care. I was just waiting to die until we went here and they made me believe in myself and gave me the tools for a better life. The staff and clients all became like my family. Please, don?t die! Call them and let them help you fight for your life because you deserve to be happy.?

These words encapsulate what sets Resurgence California apart: immediate access, genuine care, and a staff committed to walking alongside patients through every step of their journey.
